This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at `http://books.google.com/`

MAYOR'S MESSAGE.

MAYOR'S OFFICE,
ST. LOUIS, *May 17, 1872.*

To the Honorable City Council of the City of St. Louis:

GENTLEMEN:—The first regular session of your Honorable Body opens under satisfactory and encouraging auspices, for, while the present condition of our city is one of substantial prosperity, there is every reason for confidence in its future progress and development. The constant increase, however, in population and improvements, and the expansion of our business interests, create new responsibilities for those entrusted with the management of municipal affairs, and new necessities for well considered legislation, and during the present session your attention will be called to many important matters requiring immediate and careful consideration.

The annual reports from the Treasury and other departments are herewith submitted and afford a comprehensive statement of city affairs for your information and guidance.

CITY FINANCES.

On the basis of the Comptroller's estimates the total revenue of the current fiscal year, from all sources, will be, in round numbers, about $3,084,000 00. The amount derived from the general tax levy is estimated at $2,022,300 00, or nearly $200,000 less than the revenue from taxes last year; and this is explained by the fact, that, while the taxable values, according to the estimates of the Assessor, are nearly the same as on the previous year, a depreciation in the value of real estate, counteracting the effect of increased improvements, the collections on the delinquent lists were so large last year that the revenue to be derived from that source during the present year must necessarily be considerably reduced in amount. The aggregate rate of taxation is the same as that

Digitized by Google

levied last year, and is the maximum authorized in the charter. The balance in and due the treasury at the close of the last fiscal year was $206,578 17. The estimated expenditures for the current fiscal year amounted to $3,282,747 90, which would leave a deficit of about $199,000 00 to be provided for. The Comptroller, in making his estimates, confined his calculations to the actual needs and unavoidable obligations of the city, and the explanation of the deficiency must be found in the payment of floating debts made out of the revenue of last year, amounting to $148,326 98. These claims, like the balance of the floating indebtedness of the city, originated prior to the present administration, and their disbursement, together with the falling off in the collections from the delinquent list, and the probable failure of the receipts from wharfage, under the recent act of the Legislature, diminish the available means of the Treasury and create a discrepancy between our income and expenditures which, although not serious, indicates the necessity of continued economy throughout the various departments, and of carefulness in the passage of ordinances authorizing the expenditure of money.

In accordance with the resolution adopted by your body, and believing it to be highly necessary and desirable, I memorialized the Legislature for the passage of an act authorizing the issue of bonds to fund the floating debt, and so reduce it to a consolidated and manageable form, submitting, at the same time, the draft of such an act as was considered necessary by myself and the Comptroller to effect the object in view. I regret to say, that, notwithstanding my own efforts and those of the Comptroller, who furnished the most detailed information to the members of the St. Louis delegation, the bill was not passed, some curious misapprehension existing as to its character and meaning. The city's floating debt, consequently—which consists almost entirely of the amount claimed as due the St. Louis Gas Light Company, and accrued prior to 1871—remains as formerly, and at the commencement of the next session of the Legislature,

Digitized by Google

with the concurrence of your Honorable Body, I shall again endeavor to have it funded in the manner already proposed.

The bonded debt of the city, as it at present stands, amounts to $12,878,500 00, which sum includes the five hundred gold water bonds sold last March, and being a portion of the $1,385,000 00 authorized by the Legislature last winter for the extension and protection of the water works. The balance of these water bonds will probably be required during the coming summer. The sale of the five hundred bonds mentioned was made to the Bank of the State of Missouri at the rate of 94¼ cents, that being the highest bid received after thirty days' advertisement in St. Louis and New York papers, as required by the act authorizing their issue; and, although I had hoped to dispose of them at par, the price obtained indicates that our municipal securities are regarded as among the best in the financial market of the country, and fully equal to any heretofore obtained for city bonds.

PUBLIC WORK.

The total amount certified to for work done under the supervision of the City Engineer department during the year ending April 8, 1872, was $1,290,919 80, of which $402,329 73, was in special tax bills assessed against property holders for improvements in which they were interested; and the balance, $888,590 07, was certified to the Auditor and paid by the city. I concur fully in the remarks made by the City Engineer in his report respecting the usual system of awarding contracts for public work to the lowest bidder, irrespective of other considerations: and on a former occasion directed the attention of your Honorable Body to the subject. It is the truest economy to have the public work of a great and growing city executed in the best manner possible, for it is done as much for the future as the present, and the only way to avoid a constant drain upon the Treasury for the repairs and remodeling of streets, sewers, etc., is by requiring the best material and the best workmanship to be employed in the original construction.

Digitized by Google

STREETS AND STREET SPRINKLING.

The Nicolson pavement has now been in use, in this city, a sufficient number of years to enable a fair estimate to be made of its fitness for the purposes intended; and I am fully corroborated by the City Engineer and other experienced parties, here and elsewhere, in the statement that it is not satisfactory and should be abandoned. It is deficient in the essential quality of all pavement intended for public streets, over which there is constant and heavy travel, namely, durability; and, apart from the question of the expense of putting it down originally, when it once begins to wear it falls into bad order very rapidly, and the work of repairing is costly and unsatisfactory. The time has arrived, I think, when a new system of paving our leading thoroughfares should be commenced, for many of them are in an exceedingly bad condition, and nothing but an entire reconstruction of the road-bed can restore them to proper order. The kind of granite pavement suggested by the City Engineer would possess all that is desired in the way of permanence and stability, while in the reduction of the expenditures for repairs it would be far cheaper than the Nicolson or any other wooden pavement. By the use of granite, also, the material being obtained from our neighborhood, the expenditure of money would pass into the hands of our own people rather than being sent abroad in the purchase of lumber and the payment of royalties.

I have before directed the attention of the Council to the importance of some regular sytem for the sprinkling of the streets. The approach of the heated season reveals again the necessity that exists for this improvement, which would add so much to the health, cleanliness, and comfort of our city, and I respectfully commend the subject to your attention. The annoyance of dust is so generally realized by our citizens, that I feel assured any action by your body, looking toward its abatement, would be gratefully appreciated, even if it involved some additional expenditure of the public funds.

Digitized by Google

PROPOSED NEW CITY HOSPITAL.

Under the provisions of the ordinance passed at the last session of the Council, the preliminary steps have been taken for the erection of a new city hospital. The proposals received by the Comptroller for the sale of sites have already been submitted, and the plans for the proposed building are completed. Mr. B. R. Singleton, City Architect, under the direction of the City Engineer, visited Cincinnati and inspected the hospital there, which is stated to be one of the best in the country, incorporating many important modern improvements and of an extensive character. From the information derived there, and from other sources, a design was adopted for a building three stories in height, and arranged on what is known as the "pavilion plan," which is believed to possess peculiar features of excellence. The principal necessity in such a building being a thorough system of ventilation, according to this plan, the ventilation of each room and each story is made independent of the balance of the building; the escaping air passing into the smokestack of the furnance and so drawn off by a strong draught. The estimated cost is $450,000, with a capacity for eight hundred patients; but the plans are so prepared that one-half of the building could be erected, with a corresponding capacity, and the remainder built subsequently, without interfering with the general design.

These plans will come before your Honorable Body for consideration, and, however it may be thought necessary to modify them, I trust that some action will be taken, without delay, towards the extension of our hospital accommodations. The present building is entirely inadequate for the needs of the city. The crowded state of the wards sacrifices life by preventing the proper treatment of patients, while it is impossible to admit many fairly entitled to the benefits of such a public institution; and, should an epidemic occur, the condition of the city would be deplorable.

An effort was made, last winter, to procure the passage of a bill establishing a large hospital outside the city limits,

Digitized by Google

jointly supported by the city and State, both parties to be represented in the management, a general system to govern the admission of patients and the payment of expenses for each, the capacity of the institution to be commensurate with the purposes intended. The measure failed to become a law, and the question is now before your Honorable Body to decide whether it is better to await action by the Legislature establishing an institution of this character, or for the city to erect a suitable hospital for city purposes exclusively, and of a size corresponding with present and prospective necessities.

THE HOUSE OF INDUSTRY.

I desire to especially direct the attention of the Council to the importance of establishing a House of Industry, as contemplated in the system adopted for the regulation of the "social evil." I am aware that some difficulty exists as to the best location for such an institution, but I trust a practical and earnest spirit will be brought to the consideration of the subject during the present session, and that it will be definitely and promptly settled. Not only is the present system of boarding the patients expensive, but their accommodations are not satisfactory, and they are certainly entitled to better when they have already paid sufficient money into the Treasury for that purpose. I find, on examination, that the total amount collected under the social evil ordinance from July 10, 1871 (the date when a specific account for social evil hospital was authorized) to April 8, 1872, was $42,953 00. The expenses during this period were $15,-662 84, leaving a balance of cash in the Treasury, available for the purpose of building, of $27,290 16, which is sufficient to establish the institution, and if further means are necessary they will be supplied by the monthly revenue from this source. In connection with the matter of location, I have only to say that it should not be so far removed from the centre of the city as to render access inconvenient, and so partially defeat the object for which it was established.

Digitized by Google

THE WORKHOUSE.

The management of the Workhouse under the present Superintendent is prudent and economical, but the inconvenience of the grounds and the buildings materially interferes with the purposes of the institution. I would again recommend that some steps be taken to ascertain if the present premises can be advantageously disposed of, with a view to re-establish the institution on a better location and with more suitable buildings. In the meantime some temporary provision should be made for increasing the accommodation of prisoners during the summer. The crowded state of the cells cannot but be dangerous to the health of the inmates, and at times the institution becomes so thronged that common humanity requires that a number of prisoners should be discharged in order to secure some sort of accommodation for the remainder.

TOWER GROVE PARK.

This extensive park, created originally by the public spirit of Mr. Henry Shaw, is now ready for public resort, and the question of raising the annual income for its maintenance, as contemplated in the act of the Legislature, approved March 9, 1867, has been pressed upon my attention. This income ($25,000 annually in specie funds) is to be raised by taxation, as directed in the act, one-third in the county outside the city limits and two-thirds in the city, and, as it is claimed to be due for the years 1871 and 1872, an act was passed by the Legislature last winter authorizing the county, with the consent of the City Council, to consolidate, in the levy for this year, the amounts for the past two, and I have been requested to direct your attention to the subject. In doing so, however, there are some facts which it is necessary and advisable to state. Last fall two special tax bills for improvements on Magnolia avenue, within the city limits, and against the owners of the two hundred feet of ground surrounding Tower Grove park, and which strip of ground has been reserved to the use of Mr. Shaw in his deed of gift, were presented at the City Auditor's office for payment.

Digitized by Google

As the city was not considered the owner of this land, the payment of these bills was objected to, and attention was directed to the deed under which the park was conveyed to the city, and a very serious doubt was created as to its legal validity; at least as heretofore understood. I obtained the opinion of the City Counselor, and subsequently of other reliable counsel, and they were both to the effect that the conditions incorporated in the deed, respecting this two hundred feet strip of ground, were in the nature of a trust which the city could not legally execute, and that the deed was consequently void so far as these conditions were concerned, and practically conveyed this strip, as well as the interior park, to the city. Mr. Shaw and his counsel, of course, held a different opinion, and I found it impossible to arrive at any other conclusion than that a very grave legal question was connected with the city's tenure of the park. A basis of settlement was suggested by the City Counselor, at my direction, to Mr. Shaw, which of course involved modifying the terms of the deed; but it has not been agreed to, and so the matter stands at present. It is quite desirable that the park should be made accessible to the public, but I think it is also advisable, to avoid embarrassment, and possibly litigation in the future, that all legal questions should be satisfactorily adjusted, and it seemed necessary to make this explanation as to the position of matters before the Council was called upon to act respecting the income to be raised by taxation. The construction of the deed can easily be determined by an agreed case in the courts, provided Mr. Shaw consents to such proceedings.

THE POPLAR STREET RAILROAD TRACK.

This unpleasant matter is more or less familiar to all your members, but, for the information of those who may not be cognizant of the facts in the case, I will state, that the Council, at its last session, passed an ordinance authorizing the track on this street to be relaid for one year from the first day of January, 1872, provided the Pacific railroad would, at the expiration of that time, enter into arbitration

Digitized by Google

of damages with the property holders on Poplar street—the railroad company to select one arbitrator, the city another, and the property holders a third. The ordinance so passed was presented to the board of directors of the Pacific railroad for acceptance, but that Board felt that even if the people on Poplar street were entitled to damages, the railroad company would not have a fair representation in the appointment of the arbitrators; that while there might be some damage done to the property on Poplar street, yet the general advantage of the Poplar street track to the business and business men of the city entirely overshadowed such damage, placing the greater consideration before the lesser. For the sake of peace, however, the company would have accepted an ordinance considered just and equitable in its provisions, although it claimed the right by its charter to lay and maintain a track on Poplar street. The Board of Directors, therefore, decided and ordered the superintendent of that road to relay the track on Poplar street, which was done; and, knowing these facts, I immediately instructed the City Counselor to institute suit against the Railroad company, which suit is still pending in the general term of the Circuit Court. Should the decision here be adverse to the city, I have directed that the services of Messrs. Glover and Shepley be retained, in conjunction with those of the City Counselor, and that the case be taken to the higher court, on appeal, feeling that a legal adjudication is the best and only permanent way of settling this vexed question.

CHANGE OF LAW IN RELATION TO WATER PIPE.

The Legislature, at its last session, as you are aware, materially changed the law in relation to the laying of water pipe, not only making the city responsible for the cost of six-inch pipe hereafter to be laid, but providing that any person having heretofore paid any special tax for the laying of any water pipe shall have the right to recover the amount so paid from the city, and relieving all citizens from any further assessments of this character. This may be just,

Digitized by Google

but it will bear hardly on the finances of the city for the present and perhaps for years to come, as the total amount to be refunded will be about $621,000, no provision having been made for such an expenditure, as the passage of such a law was not anticipated.

I transmit herewith a communication from the Board of Water Commissioners, which furnishes a full statement of the condition of affairs in connection with the laying of water pipe, and respectfully request that the subject come before your body for consideration, as it is one in which most of our citizens are interested.

THE WHARFAGE LAW.

I have alluded elsewhere to the fact that the recent act of the Legislature will probably result in the entire abolition of the wharf revenue, which, I think, is unfortunate. I have always favored the reduction of the wharfage to an amount necessary only to keep the wharf in repair and to retain control of it; still I fear, if the present law prevails, the wharf will be neglected and permitted to fall into a state of decay, and confusion will result among those whom it was intended to benefit. The matter is one deserving attention, as it may be necessary to alter, in many respects, the existing regulations for the management and government of the harbor.

THE CITY CHARTER.

The sudden and often ill-advised changes made in the charter by each successive Legislature, without the request or assent of the city government, thereby deranging the harmonious working of the financial system of the city and of the various departments, show conclusively the necessity for a new charter, embodying a provision requiring the assent of the majority of the citizens to materially alter or amend the same. I hope, at an early day, to present for your approval the names of persons highly competent to furnish us with a charter that cannot fail to meet the approbation of all citizens, and adapted to all the commercial and civil requirements of the city.

Digitized by Google

THE CITY AND THE GAS COMPANY.

The condition of affairs between the city and the Gas Company remains unchanged, and the suits involving the right of the city to purchase the gas works, and other points, are still unsettled in the courts. Your Honorable Body, at the last session, expressed a desire to have these suits vigorously prosecuted and defended, and for your information on this subject I transmit a communication from the City Counselor, which points out some of the steps necessary in the proceedings on behalf of the city, and which require action by the Council.

Respectfully submitted.

Your obedient servant,

JOSEPH BROWN, *Mayor.*

COMMUNICATION FROM THE BOARD OF WATER COMMISSIONERS.

OFFICE BOARD OF WATER COMMISSIONERS,
ST. LOUIS, *April 9, 1872.*

Hon. Joseph Brown, Mayor of the City of St. Louis:

SIR—The Twenty-sixth General Assembly of the State of Missouri, at its adjourned session in 1872, passed an act amendatory of and supplementary to an act entitled an act to enable the city of St. Louis to procure a supply of wholesome water, approved March 23, 1868, section one of which act provides when ever a majority in interest of the property holders in any street, lane or alley in the city of St. Louis, shall *hereafter* petition (law approved March 29, 1872,) for water pipe to be laid along any street, lane or alley, and the City Council shall, by a vote of *two-thirds* of all the members elect, declare the laying of water pipe necessary, the said Board of Water Commissioners shall cause the same to be laid, and the cost of same shall be paid by the city out of the appropriation made for the laying of the pipe.

Section two of said act provides that any person having heretofore paid any special tax for the laying of any water pipe, shall have the right to recover the amount so paid from the city, and any person against whom any special tax bill may have been issued and not yet been paid, shall not be required to pay the same, but the same shall be paid by the city.

We find upon examination of the books in this department, that the amount of special tax bills and interest paid thereon for the laying of six inch water pipe, which has been as-

Digitized by Google

sessed against property owners under the laws of 1867 and amendatory act of 1868, amounts to .		$268,817 69
There has been paid on special tax bills	$200,403 72	
Interest paid thereon . .	5,520 45	
Special tax bills remaining unpaid, exclusive of interest .	62,893 52	
		$268,817 69

During the sessions of the Honorable Common Council, ending February 9, 1872, that body passed a large number of ordinances directing this Board to lay water pipe and assess the cost of same to property owners, as provided for in section one of the act approved March 23, 1868. Having the ordinances before them, the Board solicited proposals for water pipe, the price for which they accepted, and contracted for *all* the pipe that will be required to complete ordinances now in force.

You will observe from the accompanying statements that the cost of the six, twelve, fifteen and twenty inch pipe, as proposed to be laid to give an adequate supply of water for fire and other purposes, will amount to . . .	$688,476 00
Less cost of six inch pipe, if laid in accordance with the law and ordinances, amounting to	352,223 00
Balance	$336,253 00

to be paid for by the Board, which amount was contemplated to be paid by them from the proceeds of 1250 water bonds, authorized to be issued to extend the Waterworks.

The work of laying water pipe, which was progressing when the law of March 29, 1872, was approved, will be found in statement annexed marked "A," the cost of which, when completed, will be	$57,845 00
From which may be deducted the cost of a six inch pipe, which would have been assessed against property owners under law and ordinances	22,705 00

Digitized by Google

To this may be added cost of laying six inch pipe in streets where it has now been hauled, and which would have been assessed against property owners under law and ordinances	103,227 00
As also the cost of completing the laying of six inch pipe provided for by law and ordinances, not delivered . . .	226,291 00
Total cost of six inch pipe . . .	$352,223 00
Add amount already assessed and paid for laying six inch pipe under law of 1868, and ordinances	$200,403 72
Interest paid thereon	5,520 45
Amount of unpaid bills in hands of Board, assessed under law of 1868, and ordinances	62,893 52
Total amount to be refunded . . .	$621,040 69

This amount would have been collected from owners of property fronting on the pipe where ordered to be laid under existing ordinances.

The Board included, in their estimate for the completion and extension of the Waterworks, the difference in cost between six inch pipe and the twelve, fifteen and twenty inch pipe necessary to be laid to obtain a perfect system of distribution of water throughout the city, when making their application for authority to be given to the proper officers of the city for the issue of $1,250,000 in water bonds.

The $268,817 69-100 to be refunded for pipe laid by the Board under law and ordinances, does not include the cost of pipe laid and assessed against property owners prior to the creation of the Board of Water Commissioners by the act of March 13, 1867, which amount this Board has no means of determining.

Digitized by Google

We make these statements of facts presuming that upon your recommendation the Honorable Common Council will at once provide the means of carrying out the provisions of ordinances already passed, and thereby furnish the citizens a supply of pure and wholesome water, as contemplated by the act of March 13, 1867, and act of March 23, 1868.

COMPTROLLER'S REPORT.

COMPTROLLER'S OFFICE,
ST. LOUIS, MO., *May 17, 1872.*

To the Honorable the City Council of the City of St. Louis:

GENTLEMEN—In compliance with Revised City Charter and Ordinances, I have the honor to submit a report relative to the financial condition of the city, together with estimates for the current fiscal year, all embodied in the following statements, viz:

Statement "A."—Receipts of Last Fiscal Year.
"B."—Disbursements Last Fiscal Year.
"C."—Estimated Receipts Current Fiscal Year.
"D."—Estimated Disbursements Current Fiscal Year.

These statements are arranged with the view to show the channels through which the money comes in and goes out.

STATEMENT A.

Payments into the City Treasury during the fiscal year from April 11, 1871, to April 8, 1872, according to the records in this office.

FIRST—ON ACCOUNT OF GENERAL AND SPECIAL (INTEREST, POLICE, PUBLIC SEWER AND HARBOR) REVENUE.

For public improvements.....	823,685 84	
Amounts carried forward.....	$3,414,646 51	$5,000,650 01

Digitized by Google

Amounts brought forward	$3,414,646 51	$5,000,650 01
Seventh.		
For temporary loans and interest and expenses thereon	1,149,390 11	
Amount brought forward		
Eighth.		
For interest and expenses on water bonds	269,270 30	
Ninth.		
For city property	15,475 58	
Unpaid Auditor's warrants, on hand April 11, 1871	17,295 72	
	$4,866,078 22	
Less unpaid Auditor's warrants, on hand April 8, 1872	9,960 66	
		$4,856,117 56
Balance in Treasury April 8, 1872		144,532 45
To this balance must be added the amount advanced out of last year's revenue to special public sewers, to be returned out of proceeds of bonds to be issued		62,045 72
Making the amount in and due to the City Treasury April 8, 1872		$206,578 17

This amount of $206,578 17 (together with the overdrafts on public sewers and parks, the work on which—after the appropriations were exhausted—could not be suspended without material damage) fully covers the unpaid Auditor's warrants on hand April 8, 1872, and all balances standing to the credit of charter and revenue funds and accounts, viz.:

Unpaid Auditor's warrants on hand April 8, 1872	$9,960 66
Balances covered:	
Harbor	29,954 18
Lafayette Park	4,354 17
Opening street, trust fund	38,063 30
Streets, First District	29,580 30
Streets, Second District	78,421 70
Streets, Third District	10,709 77
Social Evil	27,290 16

Digitized by Google

According to the above statements, the financial administration of last year gives the following results:

All legitimate demands, including all claims of the sinking fund of the year against the Treasury, have been paid without checking the progress of any improvement.

The bonded debt (excepting the late issue of water bonds) has not been increased, but on the contrary, $8,000 bonds have been paid which matured prior to the last fiscal year.

Floating debts have been paid amounting to $148,326 98.

All balances standing to the credit of charter and revenue funds are fully covered by cash or its equivalent.

These certainly very satisfactory results are due to the cautious legislation of the City Council, to the wise counsels of the late Committee of Ways and Means, to the prompt collection and return into the Treasury of the city's revenues by the fiscal officers, and to the earnest endeavors of the officers charged with the disbursing of the city's moneys to keep expenditures within the appropriations.

Digitized by Google

STATEMENT C.

Estimated Revenue, General and Special, for the fiscal year commencing April 9, 1872, and ending April 14, 1873, based upon real estate valuations, existing Charter and Ordinances.

FIRST.		
1½ per cent. on $142,000,000 00 assessed value on real and personal property in the old limits. (See Note 1.)	$2,130,000 00	
¼ of 1 per cent. on $4,000,000 00 assessed value of real and personal property in new limits. (See Note 1.)	30,000 00	
	$2,160,000 00	
Less 9 per cent. delinquencies	191,700 00	
	$1,968,300 00	
Add 2½ per cent. delinquencies former years. (See Note 2.)	54,000 00	
		$2,022,300 00
SECOND COLLECTIONS.		
From City Collector. (See Note 3.)	$345.000 00	
Scales. (See Note 3.)	25,000 00	
Fines and fees. (See Note 3.)	25,000 00	
		395,000 00
THIRD—COLLECTIONS.		
From Social Evil		45,000 00
Wharfage. (See Note 4.)		.....
FOURTH—BALANCES.		
Cash in Treasury April 9, 1872	$144,532 45	
Amount advanced from Treasury to special public sewers, and to be refunded out of proceeds of sewer bonds	62,045 72	
		206,578 17
Amount carried forward		$2,668,878 17

Digitized by Google

Amount brought forward.....		$2,668,878 17
FIFTH—RENEWAL BONDS.		
Proceeds of renewal bonds		408,000 00
SIXTH—LAFAYETTE PARK SPECIAL TAX.		
1-5 of 1 per cent. on $1,528,530 00 assessed value of real and personal property in Lafayette Park, district No. 1.....	$3,057 06	
1-10 of 1 per cent. on $3,856,600 00 assessed value of real and personal property in Lafayette Park, district No. 2.....	3,856 60	
		$6,918 66
Total		$3,083791 83

According to the estimate of disbursements contained in the next statement, the rates of taxes for the fiscal year would be as follows:

	Old Limits.	New Limits.
General revenue	16-20 of 1 per cent.	16-40 of 1 per cent.
Interest "	9-20 of 1 per cent.	9-40 of 1 per cent.
Police "	3-20 of 1 per cent.	3-40 of 1 per cent.
Sewer "	1-20 of 1 per cent.	1-40 of 1 per cent.
Harbor "	1-20 of 1 per cent.	1-40 of 1 per cent.
Maximum rates allowed by charter	30-20 of 1 per cent.	30-40¾ of 1 per cent.
Lafayette Park tax.....	1-5 of 1 per cent.	1-10 of 1 per cent.

NOTES TO STATEMENT C.

Note 1—The amounts of real estate and personal property valuations are in accordance with the estimates of the Assessor; the rates of taxation are the same as last year, and the highest allowed by charter.

Note 2—The close collections of the current and delinquent revenue during last year allow no higher estimates than 2½ per cent. for delinquent tax collections for the current fiscal year.

Note 3—These are the highest estimates that can be safely assumed.

Note 4—An act of the last Legislature renders the collection of wharfage uncertain, and, therefore, precludes any reliable estimate.

NOTES TO STATEMENT D.

Note 1—This appropriation to wharfs of $70,000 00 is the amount estimated as revenue from real estate taxes, and is the only revenue that can be safely estimated, as the collection of wharfage is rendered doubtful by an act of the Legislature.

Note 2—The public parks have overdrawn $5,479 79.

Note 3—The public sewers have overdrawn $37,199 21.

Fifth.		
Public works	549,933 78	
Unpaid Auditor's warrants on hand April 8, 1872	9,960 66	
		$3,282,747 90
Deficiency		$198,956 07

Digitized by Google

Here we have a deficit of $198,956 07, notwithstanding the revenues are estimated as high as prudence allows, and the estimated expenditures are strictly confined to absolute necessities, and do not include any of the many improvements actually and imperatively wanted. This deficit arises from the liquidation, out of the current revenue, of floating debts left unsettled by preceding administrations (and of which $148,326 98 were paid out of last year's, and $53,000 00 are estimated to be paid out of this year's revenue), which liquidation is dictated not only by the charter, but also by common justice to the city's creditors, many of whom have been, and are still, waiting for the re-imbursement of money paid in good faith by them, into the City Treasury, years ago, and which is now returnable to them under decisions of the courts.

Foreseeing that the payment of these floating debts out of the current revenue, which, in a growing city like St. Louis, is fully needed to meet the current wants of each year, would cause embarrassment, the City Council applied to the Legislature, last winter, for authority to issue bonds for their payment. This authority, however, was not granted, and the relief must now be looked for at the hands of the next Legislature.

The following reports from city officers have been received at this office, and are herewith respectfully submitted:

First—Annual Report of the City Auditor.

Second—Annual Report of the City Treasurer.

Third—Annual Report of the City Engineer.

Fourth—Annual Report of the Board of Managers of the House of Refuge.

Fifth—Annual Report of the Chief of the Fire Department.

Sixth—Semi-Annual Report of the City Collector.

Digitized by Google

Seventh—Semi-Annual Report of the City Marshal.

Eighth—Semi-Annual Report of the Superintendent of the Workhouse.

Ninth—Semi-Annual Report of the Clerk of the Police Court.

Tenth—Annual Report of the Board of Police Commissioners.

I have the honor to be

Your obedient servant,

HENRY KAYSER,

Comptroller.

CITY AUDITOR'S REPORT.

TREASURY DEPARTMENT, AUDITOR'S OFFICE,
SAINT LOUIS, *May 14, 1872.*

To the Honorable the City Council:

GENTLEMEN—In compliance with Section 8, Article 6, of the City Charter, I have the honor to herewith place before your Honorable Body my report for the fiscal year, commencing April 11, 1871, and ending April 8, 1872.

For ready reference I have divided the same as follows:

Abstract "A."—Receipts and Expenditures.

"B."—Detailed Statement of General and Special Funds.

"C."—Accounts of Fiscal Officers.

"D."—Bonded Debt of the City.

"E."—Statement of Public Property.

"F."—Balance Sheet.

Appendix—Statistical and Financial Review of the City of Saint Louis, from its incorporation to the present time.

Very respectfully,

WALTER C. CARR,

Auditor.

	$375,000 00					34		$60 00	$18,240 00	$341,000 00

*The Board of Fund Commissioners hold two (2) coupons, maturing August 10, 1872, and February 10, 1873, respectively, on each of the two bonds canceled July 14, 1862. These coupons should be canceled, for the reason that the Sinking Fund will have received ten years' interest as soon as the coupons, which are due February 10, 1872, are collected. The Bond Record shows that all coupons, from the date of cancellation of the bonds, have been presented for redemption.

CITY TREASURER'S REPORT.

CITY TREASURER'S OFFICE,
ST. LOUIS, MO., *April 12, 1872.*

Henry Kayser, Esq., Comptroller:

SIR—I herewith transmit to you the Annual Report of the Receipts and Expenditures at the City Treasury for the fiscal year ending on April 8, 1872, which you will please transmit to the Honorable City Council at the ensuing regular session, commencing on May 13, 1872.

I remain yours respectfully,

EDWARD BROOKS,
Assistant Treasurer.

REPORT

OF THE

CITY ENGINEER.

CITY ENGINEER'S OFFICE,
ST. LOUIS, MO., *May 13, 1872.*

To the Honorable City Council of the City of St. Louis:

GENTLEMEN—In compliance with the requirements of charter and ordinance, I have the honor to present herewith the regular annual report of the operations of this department during the fiscal year ending April 8, 1872.

There has been certified to the Auditor, from April 10, 1871, to April 8, 1872, for work done under the various funds and appropriations, the total sum of $888,590 07, as follows:

FOR WORK DONE IN GRADING STREETS AND ALLEYS.

CHARGED TO FIRST DISTRICT FUND.

First Ward	$ 5,557 01	
Second Ward	7,508 97	
Third Ward	3,051 88	
Fourth Ward	3,736 70	
Fifth Ward	700 00	
Sixth Ward	1,600 00	
Seventh Ward	.....	
Eighth Ward	.....	
Ninth Ward	295 62	
Tenth Ward	3,900 00	
Eleventh Ward	4,634 33	
Twelfth Ward	1,950 00	
Amounting in the aggregate to		$32,934 51

CHARGED TO SECOND DISTRICT FUND.

First Ward	$22,379 30	
Second Ward	5,884 20	
Third Ward	5,754 92	
Fourth Ward	16,282 71	
Amounts carried forward	$50,501 13	$32,934 51

Digitized by Google

Amounts brought forward	$50,501 13	$32,934 51
Fifth Ward	10,253 15	
Sixth Ward	10,912 93	
Seventh Ward	11,113 43	
Eighth Ward	.....	
Ninth Ward	8,251 57	
Tenth Ward	.....	
Eleventh Ward	17,241 97	
Twelfth Ward	20,690 84	
Amounting in the aggregate to		$128,895 02

CHARGED TO THIRD DISTRICT FUND.

First Ward, formerly city of Carondelet	$9,000 00

MISCELLANEOUS WORK.

CHARGED TO OLD STREET AND ALLEY FUND.

Filling up streets through railroad slough, etc., amounting in the aggregate to	$1,779 34
Total amount expended for grading streets and alleys within the city	$172,608 87

REPAIRING STREETS.

CHARGED TO STREET REPAIR FUND.

Repairs of streets with macadamizing, including labor, tools, etc	$ 126,339 11	
Repairs of gutters and crosswalks	8,670 20	
Repairs of Nicolson pavement	21,009 69	
Constructing bridge over River des Peres, at Main street crossing, in Carondelet	5,000 00	
Amounting in the aggregate to		$161,019 00

CLEANING STREETS.

UNDER OLD CONTRACTS, TO JUNE 1, 1871.

First District, south of Market street	$ 8,250 00	
Second District, north of Market street	10,628 38	
Cleaning streets by day labor, previous to approval of new contracts	17,001 81	

UNDER NEW CONTRACTS, FROM JUNE 1, 1871.

First District, Carondelet	$1,843 20	
Second District, First Ward	2,588 45	
Third District, Second Ward	3,140 64	
Fourth District, Third Ward	3,600 00	
Fifth District, Fourth Ward	5,227 20	
Sixth District, Fifth Ward	5,400 00	
Seventh District, Sixth Ward	7,718 40	
Eighth District, Seventh Ward	4,320 00	
Ninth District, Eighth Ward	5,508 00	
Tenth District, Ninth Ward	3,520 80	
Eleventh District, Tenth Ward	4,284 00	
Amounts carried forward	$83,060 88	$338,627 87

Digitized by Google

Amounts brought forward	$83,030 88	$333,627 87
Twelfth District, Eleventh Ward	4,320 00	
Thirteenth District, Twelfth Ward	3,294 05	
Miscellaneous expenditures for superintending, etc	2,150 00	
Amounting in the aggregate to		92,894 93

WHARF AND HARBOR.

Grading, paving and rip-rapping new portions of wharf	$75,805 76	
Reconstructing central wharf	7,967 22	
Repairs of central wharf	19,138 94	
Furnishing ringstones, iron bolts and shackles	3,161 36	
Furnishing rock to repair dykes and to protect embankments	5,810 91	
Miscellaneous expenditures, removing wrecks in the harbor, labor, surveying superintending, etc	16,722 84	
Amounting in the aggregate to		128,605 03

PUBLIC SEWERS.

FOR WORK DONE, CHARGED TO SPECIAL AND PUBLIC SEWER FUND.

Arsenal street sewer	$ 3,855 52	
Southern sewer	19,190 00	
Mill Creek sewer	127,601 35	
Rocky Branch sewer	48,366 41	
Ferry street sewer	29,630 00	
Grande avenue sewer	1,338 00	
Repairs of bottom of Biddle street sewer	604 75	
Ringer street sewer	3,341 88	
Compton avenue sewer	2,854 68	
Bremen avenue sewer	2,470 95	
Repairing public and district sewers, for inlets, iron work and paving	4,426 97	
Cleaning sewers, labor	2,584 37	
Superintending the construction of all sewer work	9,036 08	
Amounting in the aggregate to		255,300 91

PUBLIC BUILDINGS.

CHARGED TO FUND FOR FIRE DEPARTMENT.

For erecting an engine house at the northeast corner of Olive and Second streets, Carondelet	$1,944 00	
For four cisterns for use of Fire Department, Carondelet, including drain pipes and down spouts	1,757 14	
For erecting engine house on north side of Wash street, between Twenty-second and Twenty-third streets, in block 957	5,223 00	
For work done on engine house, at old reservoir lot, east side of Eighteenth street, opposite North Market street	1,200 00	
Miscellaneous expenditures consequent upon all work ordered for Fire Department	1,191 98	
Amounting in the aggregate to		11,316 12

MISCELLANEOUS.

Lighting, extinguishing, cleaning and repairing public street lamps, including superintending	$22,954 61	
Engineer Department proper	27,857 34	
Amounts carried forward	$50,811 95	$821,744 86

Digitized by Google

Amounts brought forward	$50.811 95	$821,744 86
Establishing grades in Southern and Northern Districts, esurveying, leveling and drafting	4.473 60	
For erecting shed roofs at Soulard and Union Market houses, charged to market fund	5.152 70	
Constructing scavenger platforms, repairs of boats and maintenance of same, charged to Board of Health fund	5.964 61	
Putting up fence at dog pound, charged to contingent fund	32 35	
Opening streets, for surveys and maps	410 00	
Amounting in the aggregate to		66.845 21
Total amount certified to Auditor		$888.590 07

SPECIAL TAXES.

The following work has been done and paid for with special tax bills, assessed against the property holders, to-wit:

Curbing, guttering, macadamizing and crosswalks of streets, in former old limits, now First District	$ 61.183 13	
Curbing, guttering, macadamizing and crosswalks of streets, in new city limits, now Second District	151.976 61	
Curbing, guttering, macadamizing and crosswalks of streets, in Carondelet, now Third District	6.488 19	
		$219.647 93
Constructing new and repairing old sidewalks		31.496 69
Constructing new crosswalks		3.247 66
Grading and paving alleys under charter of 1867	$9.784 38	
Grading and paving alleys under charter of 1870	11.718 11	
		$21.502 49
Repairing curbs, gutters and alleys		3.160 21
Constructing district sewers		123.334 75
Total amount of special tax work		$402.329 73
Total amount certified to all the work done under the superintendence of the Engineer Department		$1.290.919 80

Complete details of the above expenditures will be found in the tables annexed to this report.

APPROXIMATE MEASUREMENT OF THE MILEAGE OF IMPROVED STREETS, ALLEYS AND WHARVES, AND AREAS OF THE CITY, ITS PARKS AND PUBLIC PLACES.

	Miles.	Miles.
Length of macadamized streets in the city of St. Louis, not including Carondelet	170.12	
Length of macadamized streets in Carondelet	14.80	
Total, exclusive of new extended limits, established March 25, 1873		184.92
Length of streets paved with Nicolson	9 82

WHARF AND HARBOR DEPARTMENT.

	Per Annum.
Julius Rapp, Assistant Engineer and Superintendent	$1,800 00
Richard R. Southard, Assistant Engineer Third District and Wharf in Carondelet	18,00 00
	Per Day.
Patrick Driscoll, Superintendent, and repairing wharf and wood paving	$4 00
Leo Kasehagen, Assistant Superintendent Wharf Improvement	3 00
John Wilkinson, Assistant Superintendent, temporary	3 00
Thomas Gorman, fieldhand, survey	2 25
Thomas Tivnan, fieldhand, survey	2 25

STREET REPAIR AND CONSTRUCTION.

	Per Month.
Henry Simon, Superintendent First District	$125 00
James Steger, Superintendent Second District	125 00
P. C. Cassidy, Superintendent Third District	125 00
Wm. Morrisey, Superintendent Fourth District	125 00
Wm. Riley, Superintendent Fifth District	125 00

CLEANING STREETS.

J. H. Duffer, Overseer First, Second, Third and Fourth Wards	$125 00
David J. Dickey, Overseer Fifth, Sixth, Seventh and Eighth Wards	125 00
Thomas Walsh, Ninth, Tenth, Eleventh and Twelfth Wards	125 00

PUBLIC STREET LAMPS.

Henry F. Zider, Superintendent Public Lamps	60 00

GENERAL REMARKS.

STREETS AND ALLEYS.

The progress made in the execution of the work under contract for improving streets and alleys, with some exceptions, has been satisfactory. In cases where contracts were entered into with incompetent parties, and at very low prices, I find it very difficult, if not impossible, to enforce a rigid execution of the work. The system inaugurated and established by charter and ordinance, of awarding all work to the lowest bidder, irrespective of his competency, has proved to be very injurious to the interests of the public, and subjects the Engineer Department to unfair censure.

In a well-timed article in a New York paper, the following language is used, which will apply to St. Louis. The article is as follows:

"The streets of New York are very dirty. But can any man recollect the time when complaints of our streets were not current? At all seasons there is occasion for fault-finding, but every year our public avenues reach

Digitized by Google

their maximum of uncleanliness in the spring months, after the melting of the winter snows, and hence, at this period, the public voice becomes eloquent in denunciation. But this eloquence is chronic in New York.

"We have indulged in it as long as the memory of man goeth, and are no nearer effecting a reform now than we were a quarter of a century ago; and it may safely be predicted that, if we continue our present methods, we shall be no nearer the desideratum a quarter of a century hence.

"The difficulty, we fairly believe, arises almost wholly from the prevailing contract system. According to law, our streets are cleaned and paved by contracts, which must be publicly advertised and given to the lowest bidder. The lowest bidder is almost invariably the man who means to have the contract at any price, with entire disregard of actual cost, because he will find his profits either in indirect methods or in entire neglect of performance. We knew of an instance some years ago, in which a bid for the contract to supply the city with stationery offered steel pens at one cent a gross. Here was, obviously, an intended fraud, but the law actually compelled connivance with it, requiring the contract to go to the lowest bidder, without reservation or qualification.

"The way to have clean streets and well-paved streets in New York, is to place these duties in the hands of a commission. Let a board of five or three men be elected by a general vote, who shall have supreme power, and be directly and personally responsible for the right performance of their tasks, and if better things do not ensue we will abandon prophecy forever. There is no use of indulging in rhetorical denunciations in this matter; no use of whining and complaining and lamenting. If the public haven't the wit to see the method by which reform is to be effected, and the pluck to carry it out, its chronic murmurs and discontents are entitled to no measure of respect."

In awarding contracts for public work, preference should always be given to that bidder who is known to be responsible, competent, and willing to execute work in a proper manner, and in accordance with contracts. Bids which are much below the average cost of the work, or such bids as are made by persons who have slighted their work, or intentionally furnished work of inferior description, or have been willfully neglectful in executing contracts, should not be considered at all.

By introducing such regulations and restrictions in bidding for public work, and by trusting to the judgment and experience of the Engineer, assisted by a committee of the City Council, the awarding power for the same, a remedy

Digitized by Google

can be found for present tardiness and carelessness with which public work is carried on. But this system cannot be introduced under the present charter.

The repairs of our macadamized streets, during the last year, have been very expensive in consequence of the severe and long winter, amounting to $126,339 11 for macadamizing and labor, $8,670 20 for repairing gutters and crosswalks, and $21,009 69 for repairing Nicolson pavement, making in all $156,019.

This item of street repairs will always form a very heavy burden to our treasury, and will proportionately increase with the progress and growth of our city and its business. The only remedy and safeguard against its overwhelming proportions, lays in the adoption of a different and more superior mode of construction. The present system of piling loose macadamizing upon a loose and unsettled clay foundation, and leaving the street in that condition to the public travel for consolidation, is entirely wrong. The surface of a macadamized street is rough, and teams will carefully avoid such streets, or make a narrow track in which each successive team will follow, until that part of the street is worn and cut into deep ruts, often forcing the city to repair them within three months after completion. All our macadamized streets should receive a light top dressing of two or three inches of coarse river sand, gravel, or other cheaper material, before they are opened for the public travel; teams will then beat the loose rock down evenly, and the surface will be worn off more uniformly, presenting a better carriageway than rough rock.

The necessity of a change in the construction of our street improvements is so apparent to every one conversant with the present condition, that it is superfluous to enter more fully into a discussion of the merits of the above suggestion. Our limestone rock, at the best, is a poor material for streets, but is the cheapest in first construction, and therefore likely to be used on new streets for years to come.

SEWERS.

Total length of sewers, public and district, is 129 1-4 miles, costing $4,058,214. Of these, one mile and twenty six hundredths of public sewers, and ten miles and eighty-one hundredths of district sewers, were built the past year. The latter is embraced in twenty-seven sewer districts. Fourteen sewer districts are in progress; seven districts are under contract, but not commenced; and eleven districts are authorized by ordinance, but not yet under contract. Seven hundred and eight permits for private sewer connections have been given out during the year.

Mill Creek Sewer is now done from the river to the west side of Sixteenth street, and from Tayon avenue seven hundred feet westwardly; also, from the Pacific Railroad bridge, one thousand one hundred feet towards Chouteau avenue. The work is progressing slowly in the gap from Sixteenth street to Tayon avenue, and in the gap east of the railroad bridge. The greater part of the excavation in these two gaps has been done, and the sewer can be constructed within a few months, which is much needed to afford drainage for the work west of it, which has now reached a point three hundred feet north of Chouteau avenue. The portion of this sewer from the crossing of Chouteau avenue near Armstrong avenue to Joab street, put under contract February last, has been commenced at a point between Armstrong and Missouri avenues, and between Missouri and Jefferson avenues. The contractor for the section from Pratte avenue to California avenue, has been notified to begin work.

Camp Spring Sewer, from the intersection of Twentieth and Spruce streets to its intersection with Mill Creek sewer on Tayon avenue, has been commenced, and will probably be completed by the time Mill Creek sewer will have reached this point.

The Southern Sewer on Chippewa street is completed from Missouri avenue to a point one hundred feet west of Ohio avenue, and progressing slowly.

Digitized by Google

Arsenal Street Sewer contract has been entered into for a tunnel eight feet diameter through solid rock, from its present terminus, sixty feet east of Second Carondelet avenue, to a point one thousand three hundred feet westwardly. The contractor is preparing machinery for this, and will commence work soon.

Rocky Branch Sewer is completed from the river to West Sixteenth street, excepting a gap from Ninth to Thirteenth street, which awaits the opening of Branch street. This sewer is also under contract, and progressing from Sixteenth street to Lucas street near Twenty-first street.

Grande (now St. Louis Avenue) Sewer was suspended in June, 1871, by the Sewer Committee, for the want of funds, and the contractor has not yet been ordered to resume. All other public sewers, except Mill Creek, were also suspended at the same time, but since ordered to be resumed.

Rutgers Street Sewer is completed from Main street to the river.

Bremen Avenue Sewer has been extended from Gingrass Creek to Broadway, where it receives the drainage which formerly emptied into Yeatman's Creek.

Ferry Street Sewer work has been stopped by high water in the Mississippi, and must remain so until low water season returns. The length completed is one thousand two hundred and twenty-five feet, leaving about one thousand feet unfinished. When this sewer is completed, a branch sewer, running northwardly along the old bed of Gingrass Creek, should be constructed to carry off the stagnant water now condemned as a nuiscance by the Board of Health.

The Northwestern Sewer should be extended from its present terminus on Twenty-first and O'Fallon streets, northwardly to Cass avenue and Twenty-fourth street, or at least to Twenty-third and (proposed) Dickson street, reaching a point now innundated by water that cannot escape. Twenty-third street, which was graded about one year ago, descends toward this point. This sewer should be made as soon as possible.

Digitized by Google

I think a public sewer is needed on Fourteenth street from the Farrar street sewer on Farrar and Fourteenth street, to Ferry street; from this it can be extended westwardly across Grand avenue, passing through a series of ponds which have long been a nuisance in that part of the city. It was contemplated to reach the same locality by extending the Ferry street sewer from Broadway westwardly on Ferry street; but as the opening of said street may be delayed, and the sewer on Ferry street route, though about six hundred feet shorter, would cost much more than its substitute on Fourteenth street, on account of the deep rock excavation through the hill west of Broadway, If the route is changed to Fourteenth street, the sewer could be constructed without further delay.

The southern part of St. Louis (formerly Carondelet), near the old county road, was formerly wet, swampy land; notwithstanding this, a large number of good houses have been built over it—much too low to admit of grades of streets with inclinations sufficient for drainage, without injuring private property. One public sewer of moderate dimensions, leading to the river from this level plateau, will admit district sewers to be made that will remedy the trouble, and is now much needed.

PUBLIC BUILDINGS.

The fire engine house on the northeast corner of Olive and Second streets (Carondelet), has been completed; and also four cisterns, with drain-pipes and down-spouts from buildings standing near the cisterns, to assist in furnishing a sufficient supply of water for the Fire Department in that immediate part of the city; also, an engine house was built on the north side of Wash street, between Twenty-second and Twenty-third streets.

The engine house on the old reservoir lot at the east side of Eighteenth street, opposite North Market street, is in progress; the building is under roof, and will shortly be finished. The shed roofs at Soulard and Union Market

Digitized by Google

houses are erected, and afford sufficient shelter against the inclemency of the weather and the hot rays of the sun.

WHARF AND HARBOR.

The work of improving the wharf has been progressing steadily. The portion of wharf three hundred feet south of Anna street has been completed, and the section of wharf from the south side of Convent street to the north side of Miller street, and from there to the south line of Carroll street is in progress, and will likely be completed and entirely given to the public within a few months—with the exception, only, of that portion which is interrupted by Chouteau Mill Creek. The central portion of the wharf, from Biddle to Plum streets, is fully reconstructed and in good condition, except the portion occupied by the Bridge Company at the foot of Washington avenue, and except that portion which is below ordinary low water. The whole length of wharf from Chambers street to Montgomery street, a distance of seven blocks, or nearly half a mile, will be completed during this summer season.

The section of wharf three hundred feet in extent, from Bremen avenue north, is finished; and about nine hundred feet in length, between Angelica and Augusta streets, is near completion. A spur dyke has been built at the foot of Wright street, and an embankment with stone revettment, at the foot of Mound street, extending to the east line of the wharf.

The June rise of the river will undoubtedly leave a considerable deposit of earth and sand in the low places on the wharf between the spur dykes erected, from which we may obtain sufficient material to complete the unfinished sections of wharves now in process of construction. The city is constructing a dyke at the foot of Olive street, South St. Louis (formerly Carondelet), which will collect large quantities of sand deposits, thereby cheapening the entire construction of the wharf in that part of the city.

Digitized by Google

The longitudinal dykes along the front of our city are in good condition, and need little or no repairs at the present time. Maps and ordinances have been prepared for establishing wharf lines, streets and grades for the same, from the old southern boundary of the city to the mouth of the river Des Peres, a distance of 4.11 miles, which will be submitted to the Council in June.

The total length of our wharf line, previous to the passage of the recent act for extending the city limits was 11.3 miles; the increased length by this act, makes the present wharf very nearly 14 miles long. See tables annexed to this report.

ESTABLISHING GRADES.

The importance and necessity of establishing grades of streets in the southern, western and northern districts of our city, where at present no grades exist, has been felt, by every one of our citizens having an interest in the property located therein. For several years very little has been done in this respect, on acconnt of the insufficiency of the appropriations made for the maintenance of the Engineer Department.

I have employed, during the past year, a corps of experienced engineers, to take this matter in hand, which will enable me to lay before your Honorable Body, at an early day, an ordinance providing for establishing grades of all the streets from the Arsenal south to Carondelet, in the St. Louis Common and Compton Hill district, and in the district from Cass avenue north to Bremen avenue, west of Sixteenth street.

NICOLSON PAVEMENT.

The condition of the Nicolson pavement is far from being satisfactory. A great many streets, at least one-quarter of the whole, are nearly worn out, and require extensive repairs or reconstruction.

Digitized by Google

The question now comes up, whether it is advisable to adhere to the same mode of improvement or to resort to a more substantial material for our central located business streets. My observation and experience leads me to believe that hard and tough stone should be substituted for wood; and, under this impression, I have, by advice, ordered granite blocks prepared, sufficient to cover a square or two of our streets where the heaviest traffic passes, which, if properly put down, will present a surface similar to wood pavements, and will not wear out in many years, nor will it be destroyed when removed for pipe-laying, as is generally the case with wood.

This is not an experiment, except to determine its cost in St. Louis. From present reports, the cost will not much exceed the cost of new Nicolson. With a slight addition to this cost the blocks, which will be about four inches thick by nine inches deep, may be made square on their four edges, so that when worn on one edge, which in time must happen, a second, third and fourth edge can be used for a surface, thus offering a pavemnet that will last fifty years, and perhaps longer.

Wooden pavements in St. Louis have cost over thirty-five dollars per square of one hundred superficial square feet, and some of it forty-two dollars per square. This lasts, as an average, about five and one-half years; some portions have lasted a little longer and some a little less. But suppose it lasts seven years. Fifty years give a cost of over two hundred and forty-five dollars per square, against thirty-five to thirty-nine dollars for granite.

I regard it as an unnecessary waste of money to continue wooden pavements longer, when the best of granite is within easy reach at so much less cost.

The work will all be done by St. Louis labor. Contracts can now be made with St. Louis men to furnish dressed granite rock (which can be *sawed* if desired) at our city, for about twenty-five or twenty-six dollars per square.

Digitized by Google

Let these contracts be separate ones from the laying; then the work of laying in six or eight inches of wet sand, and rammed by machinery, can be made at a cost not to exceed ten or twelve dollars, costing, as stated, less than forty dollars per square. In a very short time, competition will probably reduce these prices.

Unless the city is prepared to renew a large portion of our wood pavement shortly, this *work must be inaugurated during this session of the Council*, and it will be money saved to the tax payers of the entire city to do it.

Respectfully,

J. B. MOULTON,

City Engineer.

PRELIMINARY REPORT

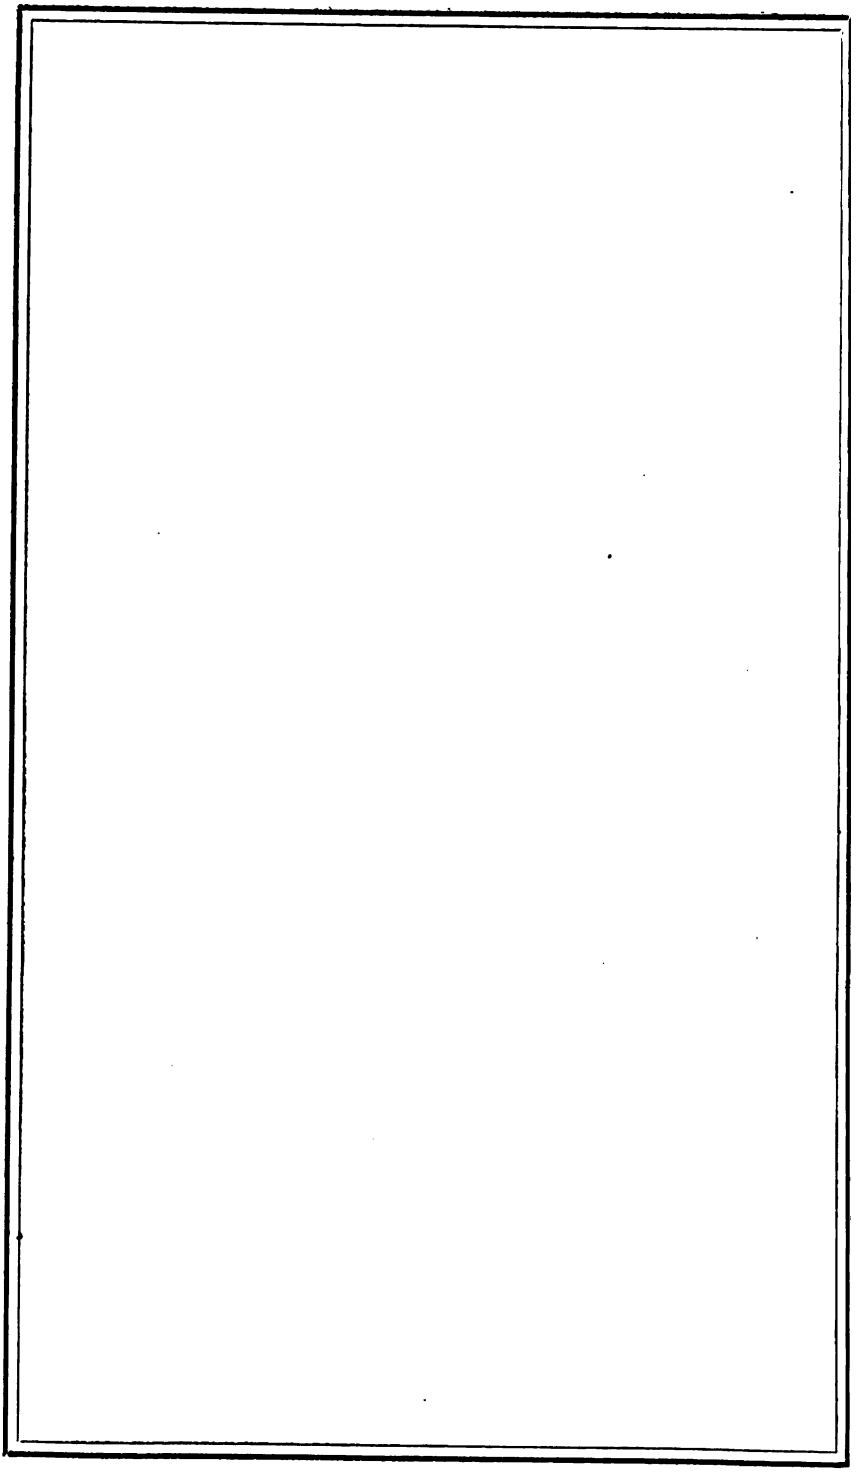
OF THE

BOARD OF MANAGERS

OF THE

ST. LOUIS HOUSE OF REFUGE.

Digitized by Google



Digitized by Google

REPORT OF BOARD OF MANAGERS.

To the Honorable the City Council of St. Louis:

In conformity with section twelve of an act to establish a House of Refuge in St. Louis county, approved February 28, 1855, the Board of Managers of the said House of Refuge respectfully present this preliminary report, that your Honorable Body may have at the commencement of its session such data as may be necessary to give you an adequate idea of the operations of the institution during the year ending March 31, 1872, and its financial condition and necessities at the present date.

The expenses of the institution during the fiscal year beginning April 1, 1871, and ending March 31, 1872, were as follows:

Building, fencing and general repairs	$ 3,549 89
Groceries and provisions, including salary of baker	3,883 57
Clothing and shoes	3,091 06
Salaries of officers engaged in the supervision and instruction of the inmates	10,248 21
Fuel and lights	1,749 62
Furniture, bedding, stoves, etc	1,264 19
Soap	165 76
School books, blank books and stationery	248 25
Animals and their keeping	1,134 78
Hospital expenses	97 14
Farm expenses, trees, seeds, manure, etc	164 67
Wagons, harness and repairs, including blacksmithing	342 40
Printing one thousand copies Annual Report proceedings of Board, etc	514 91
Salary of visiting agent	300 00
Maintenance of inmates at orphan asylums	721 00
Cane for seating chairs	608 56
Special tax for grading Louisiana avenue	142 22
Wages of teamster, and rent of water plug	600 00
Sundries	372 86
Total	$34,198 59

Digitized by Google

Receipts during the year were as follows:

From County Court, for maintenance of inmates	$ 4,554 00	
For work done in chair shop	2,597 64	
For sundry merchandise	800 08	
For rent	84 00	
From employes, for escape of inmates	60 00	
For repairing shoes	4 70	
For sundries	4 20	
		$7,604 62
Amount paid from City Treasury for expenses incurred during fiscal year ending March 31, 1872		$26,593 97

In our preliminary report to the Honorable City Council, dated May 16, 1871, we assumed that the daily average number of inmates during the year ending March 31, 1872, would not be less than 160; it was, however, 164.36, and would have been considerably greater had we not, in consequence of the crowded condition of the boys' dormitory at night, permitted inmates to leave the institution to reside with their parents in the city, and, in some cases, go to country homes, when we did not consider their characters and habits sufficiently reformed to render such disposal wholly expedient with reference to the best interests of the inmates, and the rights of the community that received them.

While the average period of detention in most other institutions of this kind is from twenty to thirty months, in ours it has never exceeded, and rarely reached, fifteen months. Why? Because (with the exception of the period between November, 1864, and February 14, 1865, at which latter date the centre and east wing of the new House of Refuge were destroyed by fire) we have not had the necessary room to accommodate those committed from time to time, without disposing of nearly an equal number, many of whom had not received the benefits of the institution for a sufficient length of time to properly qualify them to be restored to society. During the past year one hundred and thirty-four were committed, and one hundred and twenty-five discharged. During the year ending January 1, 1872, one hundred and seventeen children were committed to the Baltimore House of Refuge. The daily average number in that institution was

Digitized by Google

three hundred and forty-five, and the average period of detention of those discharged, was, in the case of boys, thirty and a half months; girls, eighteen and one-nineteenth months. These facts are cited to show that the experience of the Board of Managers of that institution, which is considered one of the most successful of the Eastern institutions, favors an average period of detention exceeding twice the maximum period of detention in our institution, in the case of boys. It is well known to those who have made the subject of juvenile delinquency a study, that those habits which have rendered a large proportion of the youth committed to reformatory institutions of this country dangerous to society, have been gaining strength and power through a series of years, during which time their proper training was almost entirely neglected. Experience has demonstrated the fact that the work of reclaiming such youth by means of judicious training and education, cannot be successfully accomplished in a few months.

"The effect of education is reformatory, for it tends to dissipate poverty by imparting intelligence sufficient to conduct ordinary affairs, and puts into the mind, necessarily, habits of punctuality, method and perseverance." Education of the head, heart, and hand, ought to cultivate the adult criminal out of his criminalities; it certainly will achieve wonders for youth.

The main design of our institution is reformation, and not punishment. Youths are committed to our care to be trained for respectability and usefulness, and, notwithstanding they are legally detained, the detention is essential to the attainment of the end in view—reformation. The institution should be regarded by the community as a manual labor school, and not as a prison.

In order to carry out the benevolent design of the institution, we need and must have more room. We appeal to you now, in the hope, and with the expectation, that our appeal will not be in vain. Our appeal is made in the interests of

Digitized by Google

society, to the end that adequate provision may be made for training and educating the young persons who, for the protection of society, as well as for their own good, are committed to our care. If society will not consent to be taxed for the virtue of the boy, it must and will eventually be taxed for the vices of the man.

Our present dormitory for boys is about forty-five by ninety feet; and, after taking off a room ten by fifteen, for the night watchman, contains about three thousand nine hundred square feet, for the accommodation of, say one hundred and twenty-one boys (that being the number we had for some time last winter), or about thirty-two square feet to each boy. Were it not for the fact that the bedsteads used are nearly all double-decked, it would be impossible to accommodate at all the boys in their present dormitory. Another dormitory, nearly, or quite as large as the present one, is absolutely needed, and grave apprehension is entertained that sickness may be the result of crowding so many into a space so small, during the coming summer months. Our present school rooms are too small for the number of pupils. We have but two departments of the boys' school at present, but shall be compelled soon to open a third department in the room now used as an assembly room, which is absolutely necessary for the purpose of assembling all of the inmates for lectures, general instruction, singing, etc., and when used as an assembly room, cannot, without much inconvenience, be used as a school room.

The boys' lavatory is a room ten by sixty-three feet only, and is not quite half as large as it should be, to accommodate at one time our present number of boys.

We respectfully ask your Honorable Body to issue bonds to the amount of fifteen thousand dollars, to enable us to erect and furnish a four story building at the east end of the present main building occupied by the boys, forty-five by sixty feet; the basement to be used for a vegetable cellar, officers' dinning room, room for locating heating apparatus,

Digitized by Google

and extension of lavatory; the first story, for visiting room for friends of inmates, reception room, Board of Managers' room, office for Superintendent, book keeper, etc.; the second story, for private rooms for officers of the institution; the third story, for an assembly room, and the fourth story for a boys' dormitory.

Immediately after the fact of the destruction of the House of Refuge by fire, in February, 1865, was communicated to the General Assembly of Missouri, an act was passed authorizing the City Council of St. Louis to issue bonds to the amount of fifty thousand dollars for the purpose of rebuilding and furnishing the institution. No bonds were issued for that purpose, and we now ask for only fifteen thousand dollars for the erection of a building absolutely needed, and of sufficient size to meet the wants of the male department for some time to come.

ESTIMATED APPROPRIATION NEEDED FOR CURRENT EXPENSES.

Assuming that the daily average number of inmates will be one hundred and seventy (and it will not be less if room is provided for their accommodation) during the year ending March 31, 1873, the amount necessary for their maintenance and education at 53 cents per day will be about $33,000. For general repairs in and about the old, dilapidated buildings of the female department, general repairs at the male department, repairs absolutely needed on fences surrounding both departments, for manure, shade and fruit trees for the garden and orchard, repairs on boys' gymnasium; also, for an addition to the inmates' library, for which only one hundred dollars have been expended from appropriations for House of Refuge since the opening of the institution in 1864, we ask $2,000. Total, $35,000.

Estimated receipts from County Court, labor of inmates, United States boarders, etc., etc....	$8,000 00	
Balance of appropriation to the credit of House of Refuge, March 31, 1872.....	621 65	
		$ 8,621 65

Digitized by Google

Estimated appropriation necessary for the support of the institution during year ending March 31, 1873	26,378 35	
Amount of bonds needed for new building	15,000 00	
		$41,378 35

For a detailed statement of the expenses of the institution, commitments, discharges, etc., etc., we beg leave to refer you to the annexed tables from the eighteenth annual report of the Superintendent.

The House of Refuge was opened for the reception of inmates, July 24, 1854, and one member of the present Board of Managers has been connected with the institution uninterruptedly since May, 1855.

Numerous letters on file in the office of the Superintendent, from former inmates, and from persons with whom they have since lived, bear ample testimony that the work of the institution in reclaiming erring youth has not been in vain, and with pardonable pride, we point to it, not only as the pioneer in Missouri in the work of the reform of the juvenile delinquent, but as the best and wisest public system for the prevention of crime in the young ever devised by human sagacity.

Respectfully submitted,

M. BROTHERTON,
GEORGE PARTRIDGE,
J. H. LIGHTNER,

Managers.

St. Louis, *May 13, 1872.*

N. B.—C. S. Greeley, a member of the Board, is absent from the city. He fully concurred with the other members of the Board in the recommendation and statements made in this report, having read the report of which this is a copy in substance.

Digitized by Google

The foregoing report of the Managers of the House of Refuge has been transmitted to me for my signature.

It is scarcely a month since I was honored with the appointment of Manager, and there has been but one meeting of the Board since that time.

Under these circumstances, unacquainted as I must necessarily be with the statistics and administration of the institution, I feel constrained to withhold my signature.

Respectfully,

JOHN WITHNELL.

REPORT OF SUPERINTENDENT.

HOUSE OF REFUGE,
St. Louis, April 1, 1872.

To the Honorable Board of Managers of the House of Refuge:

I have the honor to submit the following statistical tables from the forthcoming Eighteenth Annual Report of the Institution for the year ending March 31, 1872, as follows:

TABLE NO. 1.

NUMBER IN HOUSE APRIL 1, 1871.			
White boys	74		
Colored boys	28		
	—	102	
White girls	29		
Colored girls	20		
	—	49	151
NUMBER OF COMMITMENTS DURING THE YEAR ENDING MARCH 31, 1872.			
White boys	86		
Colored boys	25		
	—	111	
White girls	14		
Colored girls	9		
	—	23	134
NUMBER DISCHARGED DURING THE YEAR ENDING MARCH 31, 1872.			
White boys	73		
Colored boys	25		
	—	98	
White girls	20		
Colored girls	7		
	—	27	125
NUMBER IN INSTITUTION MARCH 31, 1872.			
White boys	87		
Colored boys	28		
	—	115	
White girls	23		
Colored girls	22		
	—	45	160

Daily average number of inmates maintained	164.36
Daily average cost of maintenance, *per capita*, including permanent improvements and repairs	57 cts.
Daily average cost of maintenance, *per capita*, not including permanent improvements and repairs	51 cts.

General good health has prevailed in both departments during the entire year.

The number of inmates at the male department has been too large for the room provided for them in the dormitory, school rooms, lavatory and assembly room, and I trust I may be pardoned for calling your attention again to the pressing necessity for an additional building nearly as large as the present main building at the male department.

Very respectfully,

Your obedient servant,

F. S. W. GLEASON,

Superintendent.

REPORT OF FIRE DEPARTMENT.

OFFICE OF FIRE DEPARTMENT,
ST. LOUIS, *April, 1872.*

To the Honorable City Council of the City of St. Louis:

GENTLEMEN—In obedience to the requirements of the ordinance regulating the Fire Department, we beg leave to make the following report, showing the condition and expenditures of the department for the year ending March 31, 1872; also, the amount of loss by fires for the same time:

We have eleven steam fire engines, one hook and ladder and two fuel wagons, all in good order, fully equipped and in active service. We have eleven hose carriages in service, some of which have been in service for fifteen years, and are nearly worn out, and will soon have to be replaced with new ones. We have two old or nearly worn out steam fire engines (of the Selsley make). The old "Veto" is of no use, and can only be sold for what she is worth for old iron and brass. The other is the old "Thornton," which cannot be depended upon at all times, but will answer for pumping out cellars, and take the place of some other engine while being repaired. The places of these two engines have been supplied with new engines of the Latta patent, with Ahrens & Co.'s improvements (manufactured by C. Ahrens & Co., of Cincinnati, Ohio). We have seventy-two horses, with the necessary harness, all in good order and condition. We have sold, during the year, sixteen horses which became unserviceable for the department; transferred one to the Boiler Inspector, and three died. We have purchased twenty-one horses during the year.

Digitized by Google

All of the engine houses are in good condition except the "Deluge," which will have to be repaired during the next year. We have, during the year, furnished all of the engine houses with new beds and bedding, which were most sadly needed.

We have about 20,000 feet of serviceable hose, which will be sufficient for the department until the other engines are received and put in commission.

It will be seen by the statement of the Secretary that the expenditures of the department for the year are $166,315 80, being an increase over the expenditures of last year of $34,433 06. To show how and why this seeming large increase of expenditures has been incurred, we beg leave to state by referring to the different accounts of expenses, as set forth in the report for the year ending March 31, 1871; and comparing them with like accounts set forth in this report, it will be seen that we have paid, for building of engine houses and cisterns, $7,000 more this year than was paid last year. "Hose Account," will show that we have purchased $10,000 worth more hose this year than was purchased last year. "Salary Account," will show that there has been an increase of $10,000 by the addition of eight men to start a new company in South St. Louis, and one assistant engineer, and increasing the salaries of the officers of the department; also, the equiping and natural running expenses of the new company, $6,000; and $5,000 more paid for new engines this than last year, amounting in the whole to $38,000, showing the actual running expenses of the department to be less than that of last year, which may be accounted for from the fact that horse feed has been some cheaper, and the repairs on engines less this year than last. These extra outlays were all actual necessary expenditures, to make the department efficient for the protection of property from destruction by fires, and its efficiency is not as complete as it should be, or as it will be as soon as the other three steam engines are received and properly located, which

Digitized by Google

will be within the next three months; and also the extension of the fire alarm telegraph, which has been ordered, and we suppose will be completed in the same time. With these additions, we think the citizens of St. Louis may pride themselves on having a Fire Department second to none for efficiency (although outnumbered by several) in this country.

The Secretary's report will show a detailed account of the expenditures of the department, and the number of fires, false alarms, amount lost by fires, insurance, etc. And it is with feelings of pride and satisfaction, that from that report we are able to state that the loss by fires in our city for this year has been less than the loss of last year. For the year ending March 31, 1871, the loss by fires was $630,135. This report will show for this year the loss by fires is $622,765; showing a decrease in loss this year, as compared with last year, of over $7,000.

With this showing, we feel confident that the citizens of St. Louis, and especially the property owners, will consider the moiety of their taxes used in sustaining the Fire Department is well spent.

We would recommend to your Honorable Body the necessity of an appropriation to meet the expenditures which will necessarily be incurred in the purchasing of lots, erecting houses, paying for engines, hose carriages, horses, harness, hose, and salaries, and also extending the fire alarm telegraph, also another hook and ladder apparatus, to complete the further equiping of the department with three more companies, the initiatory steps for which has already been taken.

In conclusion, permit me to return to your Honorable Body our thanks for the ready manner in which you have granted all that has been asked by the Fire Department; also, the department is under many obligations to his Honor the Mayor, and financial officers of the city government,

Digitized by Google

for the prompt manner in which they have honored the demands of this department. The city police have our thanks for valuable services rendered the department during fires.

Hoping that the Fire Department may continue to deserve the confidence of the citizens generally,

We are very respectfully, your obedient servant,

H. C. SEXTON,
Chief of Fire Department.

G. W. TENNILLE,
Secretary.

REPORT

SUPERINTENDENT WORKHOUSE.

ST. LOUIS CITY WORKHOUSE,
April 9, 1872.

To the Honorable the City Council of the City of St. Louis:

GENTLEMEN—In compliance with city ordinance, I have the honor to submit for your consideration the following report, showing the receipts and expenditures of the City Workhouse, from October 9, 1871 until April 9, 1872, and other matters concerning the institution.

RECEIPTS.

By rock sold	$ 710 05	
Fines and fees collected	803 00	
Boarding county convicts	1,494 00	
Loading iron, M. R. R. cars	538 20	
Macadamizing sold	3,868 75	
		$7,414 90

EXPENDITURES DURING THE SAME TIME.

1871.		
October	$ 2,912 75	
November	2,522 86	
December	3,018 93	
1872.		
January	2,741 67	
February	2,525 46	
March	3,345 07	
		$17,066 74
Deducting receipts from this amount leaves the actual cost for six months	$7,414 90	
Actual cost		$9,651 84

Digitized by Google

During the same time the following number of prisoners have been committed to the City Workhouse:

From Police Court		954
Criminal Court		4
Court of Criminal Correction		76
Males	590	
Females	444	
Total commitments		1,034

They were of the following nationalities:

United States (white)	196	England	31
United States (colored)	161	Canada	14
Ireland	513	France	6
Germany	106	Scotland	7
			1,034

Discharged during the same time:

Males		708
Females		351
		1,059

Remaining in institution April 9, 1872:

From Police Court	165	
From Criminal Court and Court of Criminal Correction	33	
Paupers and insane	10	
Males		127
Females		81
		208

The prisoners have been employed exclusively on the premises, at their usual routine work, viz.: In stripping the quarry, getting out rock and breaking macadamizing,—work that is not very profitable, on account of the great amount of earth to be removed, and the large amount of worthless stone the quarry produces.

I trust that your Honorable Body will take action at an early day for the improvement and enlargement of the present buildings, as there are not sufficient accommodations for the

Digitized by Google

number daily sent here. His Honor the Mayor is frequently compelled to turn large numbers of them out, who ought to be made serve their full terms, and it is done only on account of the lack of cells to keep them in. The fencing all around the premises is in a dilapidated condition, and needs renewal.

The Board of Managers have been very attentive to the wants of the institution, and rendered all the necessary facilities for the health and safe-keeping of the prisoners.

Very respectfully,

Your obedient servant,

F. G. FITZGERALD,

Superintendent.

ELEVENTH ANNUAL REPORT

OF THE

BOARD OF POLICE COMMISSIONERS

OF THE CITY OF ST. LOUIS, MO.

OFFICE BOARD OF POLICE COMMISSIONERS,
ST. LOUIS, *April 15th, 1872.*

To the Honorable the City Council of the City of St. Louis, Mo.:

GENTLEMEN:—The following report of the number and expense of the Police force, with all such matters as are of public interest in connection therewith, for the year ending March 31st, 1872, is hereby respectfully submitted for your information, in accordance with law:

THE BOARD.

There was but one change in the membership of the Board during the year, viz: Mr. O. B. Filley resigned January 19, 1872, and Mr. Joseph Pulitzer was appointed to fill the unexpired term of the retiring member.

Upon the retiring of Mr. Filley, a resolution of regret was unanimously adopted by the Board.

The members of the present Board are:

Name.	Salary per an'm.	Term of Appointment.	Expiration of Commission.	District ass'nd to.
Hon. Joseph Brown, Mayor, and *ex-officio* President....	.....	.....	.....	.....
Wm. F. Ferguson, V. Pres't.	$1,000 00	To fill the unexpired t'm of S. M. Randolph, removed.....	Feb. 2, 1873..	Second.
William Patrick, Treasurer.	1.500 00	Four years	Feb. 2. 1875..	Fourth.
Julius Hunicke, Purch. Mem	1.000 00	Four years	Feb. 17, 1875.	First.
Joseph Pulitzer, Comm'r....	1,000 00	To fill the unexpired t'm of O. B. Filley, res'gd.	Feb. 2, 1873..	Third.

As a matter of public interest and future reference, we insert here the various Boards that have been appointed since the inauguration of the Metropolitan Police system in this city, with several facts relative thereto, which are of importance as a record.

Total			2	99	1	102

The foregoing table does not include the dismissals in consequence of charges; these are given in the lists of changes in the force. A comparison of this table with the same one in last year's report shows that the rigid enforcement of discipline adopted by the Board has borne good fruits. The number of charges has been greatly diminished, a superior state of discipline makes itself distinctly apparent and the force is continually rising in its standard.

The necessity of dismissal for various causes has also become much less frequent, and the careful selection of applicants has had its good results.

Total	716	123	2825	228	3892	131,435	640	62,965	69.110½
From Mar. 31, '70, to Mar. 31, '71.	846	140	3833	364	5183	116,034	1923	55,325½	62,631½

It will be seen from the foregoing time table that the number of days absent on account of sickness during the year was 1008 less than the previous year; that the number of days allowed on pay rolls for sick time was three times less, and that the total time paid for was 14118 days more, and this with no increase in the force, showing the good results of the rule of the Board which allows no lost time on account of sickness, unless the application is accompanied by a medical certificate.

With a view of increasing the efficiency and health of the force each member was allowed a rubber overcoat, and a summer and winter hat during the year. A desire to assist the city authorities in all efforts towards economy in the administration of its financial affairs has restrained the Board from greater liberality in furnishing uniform clothing to the men, and has caused it to maintain the force at a much smaller number than its sense of the necessities of the case fully warranted.

Digitized by Google

All the members appointed during the year were subjected to the usual thirty days' probationary training, medical examination, etc., before being fully confirmed and assigned to full police duty.

The men have also been regularly drilled in the manual of arms, and in case of emergency can be rapidly concentrated by telegraphic signals at any given point in the city. It can hardly be conceived how any police force of the same numbers could be made any more effective.

POLICE STATIONS AND DISTRICTS.

REMOVAL OF HEADQUARTERS, ETC.

There has been no change made in the number or boundaries of police districts since our last report. The following is a statement of whatever changes or improvements have been made in police stations during the year:

On the 3d day of February, 1872, the Board removed the Police Headquarters from Chesnut street to the new county building called the "Four Courts," fronting on Clark avenue, between Eleventh and Twelfth streets. These quarters have been obtained by the Board from the County Court for a term of ten years at a rent of $2000 00 per annum. The expense incurred in furnishing and fitting up these quarters for police purposes, including cells for prisoners, telegraph connections, etc., will be about $2,500 00.

The station on Chesnut street will necessarily be retained as a sub-station of the second police district for the present.

The sum of $1,656 was expended during the year for improving and enlarging the main station in the first police district, situated at No. 1711 Carondelet avenue, which is the property of the police department, purchased by a former board, and is now, from its recent improvements, a model police station.

The sub-station at South St. Louis (Carondelet) being small, inconvenient, and uncomfortable, on the first day of

Digitized by Google

January, 1872, the ground-floor and cellar of Lafayette hall, at that place, was leased for a sub-station in its stead at a rent of $360 per annum, and was fitted up in a suitable manner at a cost of about $740. This location, in consequence of its large and increasing iron manufacturing interests, will soon become an important police point, and already the necessity arises there for a larger police force than has heretofore been assigned to it.

The lease of the fourth district station expired on the first day of April, 1872, and was not renewed, in consequence of the dilapidated condition of the building. The Board has made arrangements with Mrs. Mary E. Tyler to erect a building on the northeast corner of Tenth and North Market streets, as a station for this district, the annual rent of which will not exceed $600. (The rent of the place now occupied is $720.) The new quarters will be ready for occupation early in June, and will give all necessary facilities to citizens having business with the department in that district, as well as additional comfort to the men and to the unfortunates who may be confined there.

The Board fully endorses the recommendations of the Chief, in his report annexed hereto, asking for a sub-station in the northwestern part of the city (near the fair grounds), and also authority for the creation of a new district and the appointment of an additional captain and sergeants, as being matters of absolute necessity. The erection of at least one police station in the newly extended districts, for the mounted force, will also be very necessary.

COST OF THE FORCE.

ANOTHER EXTENSION OF THE CITY LIMITS—MORE MOUNTED POLICE REQUIRED—ESTIMATES FOR CURRENT YEAR.

By reference to the Treasurer's report, hereto appended, marked "Exhibit B," it will be seen that the balance to the

Digitized by Google

credit of the police account on April 1, 1871, was -	$171	05
That the total receipts during the year were - -	416,285	46
	416,456	51
Disbursements - - - - - - - - - - - - - - - - - -	393,721	54
Leaving a balance on hand April 1, 1872, of - -	$22,734	97

The various receipts and expenditures are shown by the Treasurer's report in detail. The average expense of each member of the force (rank and file) was about $1,000 per annum.

The rate of taxation assessed for police purposes for the year was 3-20 of one per cent. in the old limits, and 3-40 of one per cent. in the new, which realized *only* the sum of $212,276 05, lacking $98,821 90 of the amount of our requisitions on the city, and thus preventing the appointing of fifty additional men allowed by an ordinance approved June 22, 1871.

In view of these facts, and the recent act of the Legislature extending the limits of the city, and thereby adding 32¾ square miles to our already extensive police territory, we respectfully suggest that a sufficient tax be assessed this year for police purposes, and that an ordinance be passed at the present session of your honorable Council authorizing this Board to appoint one additional captain, three sergeants, and sixty-six patrolmen, of which number twenty shall be designated as additional mounted men in the new districts.

Digitized by Google

THE FOLLOWING ARE THE ESTIMATES OF THE BOARD OF THE FORCE REQUIRED, AND ITS EXPENSES FOR THE CURRENT YEAR.

	Salary per annum, each.	Total.
3 Police Commissioners	$1,000 00	$3,000 00
1 Treasurer	1,500 00	1,500 00
1 Attorney	1,500 00	1,500 00
1 Secretary of the Board	1,800 00	1,800 00
1 Chief of Police	3,500 00	3,500 00
5 Captains	1,800 00	9,000 00
37 Sergeants	1,200 00	44,400 00
420 Patrolmen	900 00	378,000 00
5 Detectives	1,200 00	6,000 00
1 Clerk of Chief of Police	1,500 00	1,500 00
2 Clerks	1,200 00	2,400 00
1 Property Clerk	900 00	900 00
4 Turnkeys	720 00	2,880 00
6 Hostlers	600 00	3,960 00
1 Carpenter	1,020 00	1,020 00
1 Janitor	720 00	720 00
Total salaries		$462,080 00
INCIDENTAL EXPENSES.		
For buildings, rent and repairs		$10,900 00
Fuel and lights		5,020 00
Stable and horses		7,000 00
Printing and stationery		3,500 00
Feeding prisoners		3,400 00
Miscellaneous expenses		20,100 00
		$512,000 000
Of which the city furnishes three-fourths	$384,000 00	
And the county furnishes one-fourth	128,000 00	
		$512,000 00

The two recent extensions of our city, in taking in Carondelet, Forest park and Northern park districts, occurring in such close succession, naturally necessitate a corresponding rapid increase in the strength of the police force.

Digitized by Google

Our city limits now contain fifty-two and three-quarters square miles, besides a large outside county territory, to be patrolled by the mounted force, making in all about eighty square miles, constituting a larger police territory than that of any other city in the Union except Philadelphia, which takes in the whole county.

We respectfully call special attention in the following table to the relative cost of the police force of this and the other great cities of the nation, showing very much to the advantage of our city, as we think, in its very economical administration. If Boston, for example, with a police territory of sixteen square miles, requires over 500 policemen, surely St. Louis, with a police territory five times as large, is not extravagant when she asks for even a less number; and if Washington, with a population of not more than 100,000, expends $211,000 00 per annum for police purposes, the proportionate amount for St. Louis would be $738,000 00, whereas she expends but half that sum, and so of all the other cities.

Cities compared with St. Louis.	Population.		Str'ngth of Police Force.		Police territory, sq'r miles.		Annual pay of Patrolm'n		Number of arrests last year.		Expenditures last year.	
	More.	Less.	More.	Less.	More.	Less.	More.	Less.	More.	Less.	More.	Less.
Boston	.....	80000	143	....	....	64	$195	....	5692	....	$206,280 00	.....

POLICE RELIEF FUND—HEALTH OF THE FORCE—VETERANS.

It will be also seen by reference to the Treasurer's report that the balance on hand to credit of this fund on April 1st, 1871, was - - - - - - - - - - - - - $ 4,330 80
That the receipts during the year were - - - - 8,745 20

$13,076 00
That the disbursements were - - - - - - - - - 7,179 65

Leaving a balance on hand April 1st, 1872, of $ 5,896 35

Digitized by Google

The Treasurer's report also shows the various receipts and expenditures of the fund in detail. On the 10th day of January, 1872, $3,000 of this fund were invested in St. Louis county bonds, bearing seven per cent. interest, and the bonds deposited in the St. Louis Safe Deposit Company for safe keeping. The numbers of the bonds are 7023, 7024 and 7027.

There were two auction sales of unclaimed property within the year, realizing the sum of $660 30, which was placed to the credit of the fund.

On the 1st day of March, 1872, the Board appointed a "property clerk" to take charge of and be responsible (under good and sufficient security) for all stolen or unclaimed property which may come into the hands of the Department, and of which he shall be the custodian until delivered to the proper owner or disposed of for the benefit of this fund.

The present members of the Police Relief Fund Committee duly elected by the members of the force in each district are: Captain Joseph Hercules, representing the 1st district; Sergeant Wm. S. Durdy, representing the 2d district; Captain Henry N. Burgess, representing the 3d district; Captain Thomas O'Neill, representing the 4th district; Sergeant Morgan Boland, representing the mounted district.

The committee meets once a month (oftener, if necessary) to grant relief allowances to sick or disabled members, but no claim is considered unless accompanied with a proper medical certificate.

The following table shows the number of days lost by sickness in the several districts during the year, and the amount of relief allowances on account of same.

Digitized by Google

There was but one death in the force during the year—that of Patrolman Chs. Schimmel, First district, who died of consumption June 26, 1871.

THE VETERANS OF THE FORCE.

The following is a list of members, now on the force, who have given the best portion of their lives to the service of the city, and, should they continue on the force until they become superannuated, and their conduct remain as meritorious as heretofore, there is certainly due some recognition of such merits and services.

Name.	Age.	Nationality.	Present Rank.	District.	Date of first appointm't on the Force.	If off the Force, how long.	Total time served.
Wm. Lawler	67	Ireland	Turnkey	3	Sept., 1835	1½ yrs.	35½ yrs.
Andrew Hack	58	Germany	Sergeant	4	June, 1851	1 yr.	20 yrs.
Hugh Lague	53	Ireland	Patrolman	1	Jan., 1853	1½ yrs.	17¾ yrs.
Martin Davis	48	Ireland	Patrolman	3	July, 1853	1¼ yrs.	17 yrs.
Adam Miller	43	United States	Patrolman	4	June, 1855	never off	17 yrs.
Geo. Gavin	42	Ireland	Sec. of Board		June, 1856	never off	16 yrs.
M. Traunmiller	48	Austria	Sergeant	1	June, 1856	never off	16 yrs.
Charles Kirk	58	Ireland	Sergeant	4	June, 1844	12 yrs.	16 yrs.
Patrick Roe	48	Ireland	Patrolman	2	June, 1854	2 yrs.	16 yrs.
Patrick O'Leary	49	Ireland	Patrolman	2	June, 1856	½ yr.	15½ yrs.
Lorenz Hazen	42	Ireland	Patrolman	1	April, 1856	½ yr.	15½ yrs.
Jas. McDonough	54	United States	Chief of Police		March, 1843	14 yrs.	15 yrs.
John Walsh	45	Ireland	Patrolman	2	Aug., 1857	never off	15 yrs.
Wm. H. Reily	49	United States	Patrolman	2	June, 1853	4 yrs.	15 yrs.

John Skerrit	44	Ireland	Sergeant	2	July, 1856	2 yrs.	14 yrs.
Louis Bœtticher	45	Germany	Patrolman	2	Oct., 1857	½ yr.	14 yrs.

Digitized by Google

This Board would recommend that a law or ordinance be passed allowing some compensation or pension to worthy men who become superannuated in the service, and also to the widows and orphans of members who have been killed or permanently disabled while in discharge of police duty. Such a course would, aside from its justice, be an incentive to emulation and be productive of the happiest results upon the discipline of the force.

The police relief fund, with the amount on hand now, can be made to meet all the requirements proposed. It only awaits the proper legal authority to give this very important matter a beginning.

LICENSED OCCUPATIONS.

PUBLIC CARRIERS—SUGGESTIONS.

In pursuance of an ordinance approved March 31, 1871, requiring that all applications for licenses to carry on certain kinds of business be referred (before being granted) to the Board of Police Commissioners, for its "approval" or "disapproval," according to the good or bad moral character of the applicant, the following table, showing the number of applications so referred and the number approved and disapproved by the Board during the year, is respectfully submitted:

Business.	Amount of License.	Numb'r in city.	Number ref'd to the Board.	Number Approved.	Number Disapproved.
Auctioneers.....	Six months, $150	9	1	1	..
Dram shops.....	Six months, 25	1870	1731	1636	95
Exhibitions.....	One month, 25	13	10	7	3
Intelligence offices.	Twelve mos., 50	10	3	3	..
Junk shops.....	Twelve mos., 50	12	18	16	2
Pawn shops.....	Six months, 150	22	4	4	..
Public carriers....	None referred.	....	....	....	..

The salutary effects of this ordinance, although but partially carried out, as will be seen from the table by the small number referred to the Board, is evidenced by the remarkable decrease (as shown by the police records) of the kinds of crime traceable to those occupations. The good results, however, will be more apparent as the system becomes matured.

The ordinance, as far as dramshops are concerned, was repealed by the Council during the year, and before its efficacy could be fully tested.

The reason assigned for not referring the applications of public carriers to the Board is, that they, upon receiving a license, enter into a bond with the city, with sufficient security, conditioned for the faithful performance of their duties.

Digitized by Google

The Board finds that the badges worn by public carriers are not issued by nor under the supervision or control of any proper authority, and would therefore respectfully recommend that an ordinance be passed prohibiting public carriers from wearing any kind of badge whatever, except such as shall be designated and issued by the Board of Police Commissioners.

THE FOLLOWING ARE THE RATES OF FARE ESTABLISHED BY ORDINANCE FOR PUBLIC CARRIERS.

Vehicles.	Fare.	Distance.
Furniture cars.....	$ 75	For any distance.
Baggage wagons and drays.	40	For every ten blocks.
Hackney carriages, cabs and cabriolets.....	1 00	For conveying one or more passengers a distance not over one mile.
Hackney carriages, cabs and cabriolets.....	2 00	For the first hour.
Hackney carriages, cabs and cabriolets.....	1 50	For every additional hour.
Handcars and wheelbarrows	20	For every six blocks.
Railroad omnibuses.....	25	To any part of the city.

The Board finds the following defects in the revised ordinance regulating public carriers, viz:

1. In fixing the rate of fare for hackney carriages, cabs, and cabriolets, by the hour, the number of passengers is not stated.

2. The rate for furniture cars is so low that it is never adhered to, and the question arises whether it would be just, or even advisable, to enforce it as it stands.

3. The fines for overcharging are stated differently in different sections of the ordinance; and for public porters no penalty is prescribed for this offense.

It is respectfully recommended to have these defects remedied in the next revision of the ordinances.

The following are the stands for public carriers in the city designated and established by the Board for the current year:

Digitized by Google

FOR HACKS.

1. On Fourth, Fifth, Chesnut and Market streets, in front of the courthouse, leaving a space of not less than fifty feet free opposite to the main entrance of each wing.

2. On Seventh street, west side, between Washington avenue and Green street.

3. On the Levee, from Spruce to Almond street, and from Myrtle street north one-half block.

4. On vacant lot west of Centre Market, between Spruce and Poplar streets.

5. For vehicles conveying passengers to Shaw's Garden, on Grand avenue, east side, running one hundred feet south of Lafayette avenue.

FOR BAGGAGE WAGONS.

1. On Wash street, between Broadway and Sixth street.

2. On Levee, from Spruce to Almond street, and from Myrtle street north one-half block.

3. On south side of St. Charles street, between Sixth and Seventh streets, and the east side of Seventh street, between St. Charles street and Washington avenue.

FOR FURNITURE CARS.

1. On Green street, south side, between Sixth and Eighth streets.

2. On Seventh street, east side, between Green and Morgan streets.

3. On Eighth street, between Chesnut and Walnut streets.

4. On Second street, from Myrtle to Almond street.

FOR WOOD AND COAL WAGONS.

1. On Broadway, from south side of Howard to north side of Bates street.

2. On Twelfth street, between Olive and St. Charles street.

3. On Lucas Market place, Twelfth street, between Market and Chesnut streets.

Digitized by Google

4. On Soulard Market place, between Fulton and Decatur streets.

5. On Rutger street, between Third and Fourth streets.

6. On vacant lot west of Centre Market, between Spruce and Poplar streets.

FOR HAND EXPRESSES.

1. On Fourth street, west side, between Myrtle and Elm streets.

2. On Fifth street, east side, between Locust and St. Charles streets.

CHIEF'S REPORT.

STATISTICS OF CRIME.

By reference to the statistical report of the Chief of Police hereto appended—marked exhibit C—it will be seen,

1st. That of the total arrests for the year 1,245 were State cases, and 18,563 were for violation of city ordinances; 14,085 were white males and 1,036 colored males; 3,450 were white females and 737 colored females, and that eleven per cent. of the total arrests were minors.

2d. That the average number of arrests were 53 per day, or from two to three for every hour of the day and night throughout the year.

3d. That there are more arrests made in the third district, that is between Washington avenue and Cass avenue, than in the second district, situated between Chouteau and Washington avenues, and almost double that of all the districts conjointly.

4th. That nearly every sixth person arrested could not read or write.

5th. That the number of single persons arrested was more

Digitized by Google

than double that of the married, or more than two to one in favor of the married state.

6th. That the following classes produced the largest number of arrests, viz: Laborers, 5,371; prostitutes, 2,684; loafers, 515; servants, 493; rivermen, 401; gamblers, 374; saloonkeepers, 329; baggage-wagonmen, 312; printers, 287; and thieves, 276.

7th. That between every fifth and sixth person arrested was sent to the workhouse.

8th. That 1,141 lost animals and 508 lost vehicles were restored to their owners during the year, the value of which, with other property and money recovered, was $541,189 00.

9th. That 12 churches, 15 schoolhouses, 24 factories, 168 stores and 1,563 dwellings and other buildings were erected in the city during the year, the cost of which was $9,494,009 00.

10th. That there are 136 bawdy houses, 6 assignation houses, and 6 keepers of single rooms in the city, with a total of 703 bawds, of which 150 are colored; and that bawdyism has decreased almost 50 per cent. since our last report.

11th. That 372 lost children were restored to their parents, 9 foundlings taken care of, 506 stores found open and secured, 178 fire alarms given, 94 fires extinguished without an alarm, 6,947 nuisances abated, and 37,630 police telegrams sent by the police during the year.

We would respectfully invite special attention to that portion of the Chief's report treating of the "houseless and homeless" and "destitute poor," sanitary matters, the social evil, gambling, the police convention, etc., as being subjects particularly deserving consideration.

In connection with this subject, we here submit the following comparative exhibit of crime in the city for a series of years, showing its relative increase, with the progress of population and education, and other matters of interest:

Digitized by Google

COMPARATIVE EXHIBIT OF CRIME.

Years from March 31st to March 31st.	Population.	Police force allowed by law.	Cost of the force.	Arrests.			Percentage of population arrested.	Percentage of population in school.	Remarks.
				State cases.	City cases.	Total.			
1800	1.000	.....	.....	.....	.....	.....	.....	.....	No police force.
1835	8.316	12	$ 4.800 00	18	342	360	4.6	.....	First organization of a police force by Mayor S. F. Darby.
1841	20.826	.....	.....	.....	.....	.....	.....	1.2	
1850	74.439	75	36,000 00	140	2.827	2,967	3.9	2.9	
1861	160,773	235	127,723 53	943	5,522	6,465	4.4	.....	First organization of the Metropolitan police force.
1864	164,456	266	130.444 00	1,026	6,359	7.385	4.5	.....	
1866	204.827	266	221.231 53	1.423	8.416	9.839	4.3	.....9.	
1867	225.000	298	251,406 85	1.282	9,921	11.203	4.9	.....	
1868	240.000	298	309,314 44	1,020	10.569	11.589	4.5	.....	This large incr'ase of expenditures is due to the purchasing of real estate for police stations.
1869	280,000	298	305,711 84	2,365	10,831	13,196	4.6	.....	
1870	310.864	348	300,997 69	1.365	13,703	14,068	4.6	.....	
1871	325.000	348	357.366 71	1.363	16.116	17,484	5.5	9.6	
1872	350,000	398	393,731 54	1,245	18,063	19,308	5.5	.....	

It will be seen from the foregoing table that while the population of the city has increased at the rate of one hundred per cent. for every ten years, the proportion of arrests to population has increased only 1.2 per cent. since 1850, which is attributable, no doubt, in a great measure to the large increase in the percentage of our public school education.

In the criminal statistics of Europe we find that the countries which foster education most, have the least amount of crime.

For example, in Sweden, where compulsory education is in vogue, and where 97 per cent. of the children attend school, crime is less in proportion to population than in any other country in Europe. Our own city confirms this fact, as is shown by the above table.

We would respectfully call the attention of your honorable Council to the imperative necessity which exists for the enlargement of the accommodations at the Workhouse for prisoners. With its present limited capacity, to contain all

Digitized by Google

who are consigned to its keeping the Mayor is compelled to make frequent visits to that institution to pardon out a sufficient number to make room for more, a majority of whom are again in a little while inmates of this really useful appendage to a good city government.

The Board, therefore, respectfully represents that by enlarging the accommodations sufficiently this necessity for pardoning would not exist and the ends of justice be considerably enhanced, whilst the arduous labors of the Police would thereby be diminished instead of being multiplied, as now.

In conclusion, the Board takes great pleasure in according due credit to the officers and men of the force for their very general good character, and a degree of efficiency which deserves the approbation of the Board, of your honorable body, and of the citizens generally. It has been the steady aim of this Board to increase the *esprit de corps* of the men, to elevate them in their own opinion and the opinion of the public whom they serve, and the Board believes that the character of the force for efficiency, discipline, intelligence, gentlemanly deportment, and all the other qualifications necessary, will compare favorably with that of any of the first-class police departments in the country, and even invite attention from abroad.

Respectfully submitted,

By order of the Board.

WILLIAM F. FERGUSON,

Vice-President.

Attest: GEORGE GAVIN,

Secretary.

"EXHIBIT C."

REPORT OF THE CHIEF OF POLICE.

OFFICE CHIEF OF POLICE, FOUR COURTS,
St. Louis, Mo., March 31, 1872.

To the Honorable Board of Police Commissioners:

GENTLEMEN—I have the honor to lay before you, for your consideration, the accompanying report relating to the Metropolitan Police Force of this city for the fiscal year ending March 31, 1872, supplemented by criminal, police and other miscellaneous statistical information, together with such suggestions as I feel are calculated to promote the efficiency of the force.

Very respectfully,
JAMES McDONOUGH, *Chief.*

REPORT OF CLERK OF CHIEF OF POLICE.

METROPOLITAN POLICE DEPARTMENT,
CLERK'S OFFICE, FOUR COURTS,
ST. LOUIS, *March 31st, 1872.*

James McDonough, Esq., Chief of Police:

SIR—I have the honor to submit the accompanying statement showing the receipts and deliveries at this office of property, money and valuables during the year ending the 31st of March, 1872; also, the proceeds derived from the sale of found, stolen, unclaimed and abandoned property, which has been paid over to the Treasurer of the Board of Police Commissioners.

In addition to this, there was delivered from the various districts and mounted department perishable and other property, consisting of merchandise, animals, carriages, wagons, carts, etc., etc., with money and valuables, taken from prisoners as personal property and receipted for by order of Chief, Captains and Sergeants, and reported monthly by district returns and abstracts to this office.

Respectfully submitted,

JOHN C. CHAPMAN, JR.,
Chief Clerk.

REPORT OF DETECTIVE STAFF.

METROPOLITAN POLICE DEPARTMENT,
DETECTIVES' OFFICE, FOUR COURTS,
ST. LOUIS, *March 31st, 1872.*

Capt. James McDonough, Chief of Police:

SIR—I have the honor to hand you the following report of the operations of this branch of the Metropolitan Police force of St. Louis for the fiscal year ending March 31st, 1872.

My command now numbers five (5), two (2) less than at the opening of the present year; yet this number is adequate to the work at hand. While all large cities are the abiding places and resort of thieves, this city can boast, and well be proud to say, that fewer professional and less dangerous thieves have made their appearance during the past year than has been the case for several years. This is owing to the fact that all violations of the law are quickly traced to the offenders, and without fear or favor prosecuted before the proper courts of justice.

The accompanying record of arrests, as taken from the books of this office, will demonstrate in a measure that fact.

I would most respectfully invite your attention to the Clerk's statement of money, valuables and other property recovered by this force and delivered to the parties reporting the loss of same, amounting to two hundred and ninety-eight thousand four hundred and thirty-eight dollars and thirteen cents ($298,438 13).

In conclusion, permit me to say that the courteous and prompt action of my officers at all times has, I feel confident, won the esteem of the department and the confidence of the community.

Very respectfully,

L. HARRIGAN,
Chief of Detectives.

TREASURER'S REPORT OF THE HOUSELESS AND HOMELESS.

In addition to the current transactions, and reports thereof, belonging to the police force in its executive quality, as provided by statutes and ordinances, other duties were added; these mainly from force of circumstances.

During the entire year, and particularly in the winter, when labor finds no employment, houseless and homeless wanderers crowd the police stations in every district of the city for shelter and food. To such an extent did this condition of distress reach during the winter of 1870, that I took immediate steps to provide a remedy for the inconveniences to which the station houses were subjected, and, with the assistance of the Hon. County Court, his Honor, the Mayor, and a number of eminent citizens, I have established the institution known as the Houseless and Homeless, No. 213 Christy avenue, for this class of persons.

The institution has sustained two seasons, and thousands of honest poor, whose labors upon the river, the wharves, and elsewhere, have been suspended by the rigors of winter, have been kept from suffering and starvation, and, what is better, from resorting to crime in the extremity of despair.

There are peculiar features appertaining to this class of charity; it is the refuge of those who, in the inclement season, have no other refuge to seek or find in a crowded city.

It is conducted without the cost of a single dollar to the agency which discovers and selects the outcasts entitled to its relief; it furnishes, as offices to apply to, the police station, where the defenceless poor, in the season of distress, resort, as to an asylum, where they can obtain advice, and find shelter and a meal. It also yields the grateful opportunity to hotels, ordinaries and wealthy families, of husbanding human food, clothing, and other necessaries—no longer useful in their sphere—but which are capable still of feeding the hungry and clothing the naked.

Nor does this system trench in any degree upon the time and duties of my officers so as to interfere therewith injudi-

Digitized by Google

ciously; and I have great pleasure in announcing to the Hon. Board of Police Commissioners, that the services of the force in this duty, in the office and on the beat, are discharged to the poor and helpless with humanity and courtesy.

The economy in outlay is in accordance with the smallness of the sum collected. Two thousand one hundred and sixty-seven dollars and twenty seven cents ($2,167 27) were expended during the year ending March 1st, 1872, leaving a balance of six hundred and thirty-two dollars and ninety-six cents ($632 96) on hand. A paid agency in the transaction of this charity would necessarily absorb nearly the entire amount. Poverty and destitution seek out and accost the police officer, and do not hide themselves away where a private inspector can find them with difficulty; besides, numbers make the task easy and imposition impossible.

My experience, especially during the past year, of police efficacy in the relief of human suffering from hunger, nakedness and cold, imposes upon me a duty of making a suggestion herein to your honorable Board. The benevolence of our citizens is fully equal to supply the necessities of her needy and destitute poor; thoroughness and economy of distribution are the cardinal requirements. The beneficiaries of the Houseless and Homeless institution are, in the main, not our own citizens, but belong to our floating and transient population. Since the policy which you have patronized—of authorizing police aid to relieve this class of destitutes—has resulted so well, without the slightest interference with the police duties proper of the force, would it not be well again to extend the circle of charity by the same gratuitous agency, and bring the wants of our own needy citizens to the knowledge of the benevolent and the wealthy? The peace and order you have established in St. Louis are likely to be permanent, for your rules being carried out, give no foothold for those who disturb them; and in the absence of crime of any amount, you can thus relieve the sufferings which winter assuredly brings along. Supplies will flow in abundantly when our citizens are assured of their thorough and economic

Digitized by Google

outlay, and when depots of supply and disposal are provided and made known.

This policy interferes with none of the meritorious institutions already in operation, but will relieve them of much expenditure of time and trouble, and enable them to economize their resources largely.

The following statistics will give some idea of the magnitude of the enterprise, and the immense relief afforded the various police stations through this charity alone.

In behalf of the "Institution," I desire to thank my Superintendent and Matron, Mr. and Mrs. Harding, for their industry and prompt attention to the wants of the applicants, and their general good management of the inside duties.

Respectfully,

JAMES McDONOUGH,

Treasurer.

THE POLICE AND THE POOR.

Following those cared for in the institution of the Houseless and Homeless, and the duties strictly appertaining to the Home, I have, during the winter just passed, as also that of the year previous, organized a relief system for the suffering poor of entirely a different class—residents of this city, wretched in their isolation, and actually suffering for food and fuel—by soliciting donations of food, clothing, and

Digitized by Google

other necessaries of life, from the charitable, and then judiciously distributing them through means of the force under my control, who, by virtue of their duties, are necessarily familiar with the wants of the poor class, and are able to apply to the best advantage the donations received.

The winter just past was the severest for many years, and the applications for assistance to this office were largely in excess of the same for 1870; yet I was compelled, in the early part of January last, to relinquish the good work so promisingly begun.

The generous benefactions of the few charitable citizens were duly acknowledged through the public press, and it will be seen by the report following that the paucity of relief furnished was commensurate with the paucity of donations received.

Without encroaching in the least upon the other numerous benevolent charities of St. Louis, I can from experience say that, by police intervention, destitution in families is reached and relieved that would otherwise be overlooked entirely.

Nor would it be proper to omit the payment of thanks to Joshua Cheever, Esq., President of the St. Louis Provident Association, for kindly donating large supplies of bread and meat during the inclement season; also to the city press for the occasional notices given.

NOTE.—Decrease compared with that of previous reports (1871) was 310 buildings, although the cost of same was much less than the buildings of 1872.

SANITARY.

The police force is required to perform important functions, as the executive of the Honorable Board of Health, as provided by the provisions of the ordinance touching that body.

The amount, and the importance, of the several items, as specified in the following statistical report, will inform your Honorable Board and the public as to the industry and vigilance demanded in this most essential branch of the public service.

Digitized by Google

By section ten (10), article ten (10), of the revised health ordinance, the duties of the Sanitary Department devolve upon the Chief of Police. Being personally acquainted with the requirements of the Health Department, and issuing from this office the requisite instructions to fulfill them, I can attest the zeal and efficiency with which this additional work is performed by the small force under my command.

I beg to state to your Honorable Board, that the police—as a proof of their taking an interest in the general welfare of the city—have, as a rule, warned citizens when acting in contravention of the ordinances; most of whom have generally complied with the notice. Of the fifty-seven hundred and twenty-five (5,725) nuisances found and reported by the police during the year, four thousand five hundred and eighty-nine (4,589) were abated, nine hundred and fifty-four (954) delinquent cases were reported to the Police Justice, and legal proceedings entered against them, on receipt of court complaints from this office.

I have instructed the force, in the performance of their multifarious duties, to use persuasion before having recourse to any means of rigor; and in this respect they have earned my fullest commendation.

Total number of removal permits issued during the year was	5,622

The amended social evil law, passed July 10th, 1871, requires prostitutes, residing in single rooms, to be registered as house keepers, and as such to be subject to the monthly. dues and fees imposed by ordinance.

The whole number now occupying single rooms, under this amended registration, March 31st, 1872, as will be seen by the following statement, was six, (6) or two hundred and forty six (246) less than the corresponding date of 1871, a decrease of 97.5 per cent. This falling off is mainly due to the operations of the law itself, and favorably contrasts with the workings of the old system.

BAWDS REGISTERED IN SINGLE ROOMS.

District.	No.	District.	No.
First		Third	3
Second		Fourth	1
Total	2	Total	4
Total bawds in rooms			6

The majority of this class, however, are not included in this table, and the calculations herein made are confined entirely to the actual number registered.

A large number of bawds, occupying single rooms, are duly registered in specified houses of assignation; and are within reach of the police, and the Medical Examiners at all

Digitized by Google

times; they are not classed under this head, but appear in the aggregate registration.

A decided improvement is noted in these women, and a marked decrease in number, since the law went into force.

From the 25th of July, 1870, to the 31st of March, 1872, the period that it has been in force, two thousand and fifty two (2,052) bawds have been registered by this department. From the 25th of July, 1870, to the 31st of March, 1871, the date of closing my last report, twelve hundred and eighty four (1,284) were registered; since that date, up to the 31st of March, 1872, when the records of this year closed, the registration amounted to seven hundred and three (703), or five hundred and eighty one (581) less than the actual registration of 1871. A decrease of over forty-five per cent. in twelve months.

This reduction is, in a measure, owing to the fact that a large number of names of prostitutes, who have manifested a desire to reform, have been stricken from the register by the advice of the medical examiners and consent of the Board of Health, they having the discretion and authority in all such cases.

A charitable construction of the intended reformation of this class, together with a willingness on the part of the officials to aid and assist these unfortunates, has no doubt been the means of doing some good; while, on the other hand, I am satisfied that advantage has been taken of the misplaced confidence by many, who have plied their vocation without complying with the law; and for a time have entirely evaded the surveillance of the police.

In view of these opinions, expressed from experience, I would respectfully suggest that the name or names of women making application to be stricken from the register should be referred to your Honorable Board, who have at your command, and under your control, officers fully competent to furnish the information that will conduce to a proper decision in the premises.

Digitized by Google

I therefore recommend that this power be vested solely with you.

I will recapitulate a few of the moral effects produced by the St. Louis social evil law in this city, which, in my opinion, far outweigh any moral objections which have been or can be alleged against it.

1. By this report it is shown conclusively that the number of public women have uniformly decreased each year.

2. That they are more decorous in their manner in public.

3. That the plying of their wicked trade upon the public streets has been almost entirely discontinued.

4. That a considerable number of abandoned women have been reclaimed and restored to respectable life, and, in several cases, married.

5. That clandestine, or private prostitution, which often develops into open vice, has been materially checked, through fear of the legal consequences of such indulgence when brought home to the offender.

6. That juvenile prostitution has been greatly diminished, if not wholly removed.

The distinctive principle on which the social evil ordinance was framed and passed, was that the judicious control and superintendence of this particular form of immorality would lead to its repression, diminution, and ultimate extinction. That the results have so far been encouraging, is beyond doubt.

The most enthusiastic promoters of the measure could not have hoped for a larger or more beneficent success than has attended its workings during the two (2) years in which it has been in force. Houses that have long given offense to the public by their turbulence or boldness are now wholly suppressed. The young and the heedless have been warned by the police of the consequences of entering a life of shame. The number of bawds have largely decreased, and the deaths, formerly very numerous, in consequence of

Digitized by Google

diseases concomitant on a life of shame, have, in a great measure, been prevented.

Under the law this evil has been removed, as it were, from the exclusive domain of the moralist, and intrusted to practical heads and practical hands to give it shape and form, in order that, if possible, some good might result from a vice so stupendous and so mischievous, and one which has existed and flourished in all nations and all countries from time whereof the "memory of man runneth not to the contrary." St. Louis alone, on this continent, has grappled with the monster; and, while it is not claimed that the authorities have suppressed it, or even expected so to do, nevertheless, by the intervention of the strong arm of the law, and strict police surveillance, it has been stripped of some of its worst features, and great reductions have been made in the ranks of its votaries, as you may observe from the records of this office, and which are a part of this report.

These are cheering results that call for sincere congratulation from every lover of his race. The bold fact stands before the world, attested by abundant and conclusive evidence, that the supervision of this evil by the police does not tend to strengthen or confirm it, but to deprive it of its principal terrors, and, by wise and judicious action, to lead its victims to the paths of rectitude and right, and to their ultimate restoration to society.

The satisfaction herein expressed, however, is somewhat tempered by the consideration that the full benefits contemplated by the ordinance are yet in expectancy.

It is provided in section seven (7) of the revised ordinance, that the Board of Health shall have power to erect, purchase or rent suitable buildings to be used as a hospital and house of industry, for the exclusive care, medical treatment, and industrial employment of diseased bawds. The section following provides that for the "future support and maintenance of said hospital and house of industry, for the payment of its debts, the advancement of its interests, and the humane and reformatory objects contemplated by its

Digitized by Google

establishment, each owner or keeper of a bawdy house, room or rooms, or assignation house, shall pay the sum of ten (10) dollars per month as hospital dues, which sum shall be paid to the medical examiners on the first week of each month, and one (1) dollar each examination fee; and each prostitute, courtezan or lewd woman, shall pay the sum of one dollar and fifty (1 50) cents, each week, as hospital dues."

In pursuance of this provision, there has been collected, with undeviating regularity, the sum of fourteen (14) dollars per month from each keeper of a bawdy house, and six (6) dollars monthly from each of the inmates. These sums have been paid by the clerk of the Board of Health into the city treasury, as they were received; and are now sufficient in amount to relieve the distresses, and provide for the welfare of the unfortunates upon whom they have been assessed.

It is estimated that not less than eighty thousand (80,000) dollars have been received in this manner. Deducting from this amount the sum of the expenses incurred in carrying out the provisions of the ordinance, there remains on hand March 31st, 1872 a balance of nearly forty-five thousand (45,000) dollars. This sum is amply sufficient to provide a hospital and a house of industry for the unfortunates who need its aid. It will do more; it will give them a home where their social and spiritual necessities may be consulted, and where the benign influence of christian charity may throw its protecting mantle around those erring and wayward daughters of Eve, and who, for the most part, are "more sinned against than sinning,"

Let us have, then, without further delay, the promised hospital and industrial house, where the invalid may retire and be properly cared for, both in the body and in the soul. This will be a fact which will present evidence indisputable, that the fathers of this wise law are in earnest in their efforts, set forth for the reclamation of the class in question. It will do more; it will make manifest to them that they are not abandoned to the mercies of a cold, censorious and uncharitable

Digitized by Google

world; and if there be the smallest germ of virtue still remaining, give it an opportunity tofructify and grow apace, as it must, and surely will, by the aid of kindly actions, generous words, and salutary counsel.

In this connection, it may be proper to state that, in the absence of the projected hospital, the institution known as the Female Guardian Home has been selected and used for the reception of the patients; and the best care possible has been bestowed upon them; but the premises will only admit a limited number, and is totally unfit to meet the exigencies of the case.

The provisions of the ordinance in reference to establishing a hospital for diseased women are full and explicit, and its requirements should have been long since accomplished. The same may be said of the "industrial home," contemplated by ordinance for similar purposes. Ample funds have, for more than a twelve-month, been lying in the treasury for the purposes above enumerated, and yet no action has been taken in the premis s. Justice and humanity, towards those who have been compelled by law to contribute to this fund, should prompt the City Council to act in this matter, without further delay. I desire to invite your earnest attention to, and your hearty co-operation in, the above suggestions, as the chief features in the consummation of a great and good work, truly an undertaking "of great pith and moment," one which has been happily begun, and which is progressing auspiciously enough to augur for the future the most gratifying and beneficent results.

In the effort to deprive the social evil of its most unsightly and revolting features, St. Louis has taken the initiative, and there is every reason to hope that her labors in that direction will be speedily brought to a successful and triumphant issue.

GAMBLING.

Gambling is a violation of the general statutes of the State of Missouri, as well, as the revised ordinances of the city of St. Louis.

Gambling is always, everywhere and in every shape, an unmitigated nuisance, generally working in partnership with alcohol for the ruin, body and soul, of its votaries. The power and the resources of the profession are enormous; it has its lobbies and its rings, and shapes the laws that control it with subtlety and finesse.

The wary defense and ingenious guards against surprise adopted by the gamblers, make it an extremely difficult task for the police to successfully raid their establishments, and capture more than a few "hasers" and some general gambling apparatus.

SUPPRESSION OF GAMBLING.

By prosecutions under the statutes and ordinances for the suppression of gambling, I desire to call the attention of your Honorable Board to the fact that, when I first began to deal with this vice, in the fall of 1870, the gambling houses of St. Louis numbered seventeen (17) faro and five (5) keno establishments, undisguised, open and prosperous.

Digitized by Google

From the issuing and serving of the first warrant, October 3d, 1870, to January 1st, 1871, sixteen (16) keno and twelve (12) faro raids were made, resulting in the suppression of three (3) keno and eleven (11) faro establishments, that finally yielded to the repeated raids and prosecutions of the police.

I beg leave to call your attention to the statistics following this report on gambling: the efforts under the orders of your Honorable Board to suppress gambling since January, 1871.

From the 7th of February to the 29th of March, 1871, six (6) faro and four (4) keno raids were successfully made, resulting in the suppression of two (2) faro houses and one (1) keno house.

A number of places still remaining open and running contrary to the orders and efforts of your Honorable Board, on the 3d of April, in addition to the raiding, a more stringent method of prosecution was adopted.

Information was given to the prosecuting attorney of the Court of Criminal Correction, and warrants issued to the County Marshal for the apprehension of the proprietors and attendants of the several gambling houses still open. They were brought before this court, and, upon evidence afforded by the police, were convicted or plead guilty of violating the general statutes.

By this means the proprietors of four (4) faro and two (2) keno houses were repeatedly summoned before the court until the 20th of June, when the gambling war came to an end, every faro and keno house in the city having been closed by this vigorous prosecution. Sixty-one (61) cases were made by this method, and a fine of sixty-five (65 00) dollars, including costs, were imposed each time, amounting to thirty-nine hundred and sixty-five (3,965 00) dollars.

Peace and quiet reigned for some months. At length, in March last, they again, for reasons unknown to me, reopened. Pursuant to your orders, I am again engaged in raiding and suppressing the same houses.

Digitized by Google

It will be seen by the following table that the police have been active in their raids, and in carrying out your instructions in this particular branch of vice. Nine thousand six hundred and fifty (9,650 00) dollars' worth of gambling property has been destroyed during the year; in addition to this, the greater portion of eighteen thousand five hundred and ten (18,510 00) dollars found its way into the city and county treasury, as fines and costs in gambling cases only.

If gambling is but a branch of the social evil and intemperance, it is for legislation to settle and solve; but as long as the law abolishing it absolutely is in force, and the requisite instructions issued by your Honorable Board to suppress it, the police will enforce the law at all hazards.

GAMBLING STATISTICS.

The following is a statement of gambling property seized and destroyed by the police during the year ending March 31, 1872, showing the value of property captured, the number of raids made by the police, and the aggregate amount of fines and costs imposed in gambling cases in the various courts.

POLICE DISCIPLINE.

Your Honorable Board, under the law, is charged with the appointment of a police force for the city of St. Louis, and you are held responsible for the character as well as the qualifications of the appointees. This is a trust imposed which is fraught with more responsibility than perhaps any other duty you are called upon to perform.

The position of policeman is one of responsibility and great trust, whether we consider the duty he is charged with or the integrity and honesty of purpose that he should possess. Therefore, in the selections made they should be on the merits of the applicant, and not upon the importunities of friends, regardless of the essential element of qualification.

The officer in the discharge of his duty must necessarily encounter the elements; he is exposed to the summer heat and the winter blast, the pelting rain, and storms of every character. How essential, then, is it that he should be healthy, well built and strong, in order to meet the emergency. He is held responsible for the lives and property of the citizens on his beat, and is required hourly to account for his whereabouts.

He is liable at any moment to encounter the vicious and depraved, and to test his physical powers with the desperado, in order that the life and property of those under his charge shall be protected.

He is called upon to decide questions at a moment's notice which may, for the time, wrongfully take from the citizen his liberty, or cause him great inconvenience. How necessary is it, then, that men of good judgment should be selected.

Digitized by Google

In view of these indisputable facts, I submit that the greatest care should be exercised in the selection of the policemen.

You cannot expect, however, to obtain all the virtues in the calendar for seventy-five ($75) dollars per month; but you can test the judgment and the intelligence of the applicant.

In this connection, permit me to say that I take great pleasure in bearing testimony to the manly standing and discipline of the force under my command.

The harmony which pervades the entire force is evident from their efficiency, the willingness of both officers and privates to respond to every call or demand of mine, either night or day, without a murmur, together with the urbanity and politeness in the discharge of their multifarious duties, have won my highest esteem and regard.

The citizens of St. Louis, I believe, have full confidence in the efficiency and integrity of the department, and have less apprehension of danger from the evil-doers than at any time within my remembrance.

Since I have been at the head of the department, I have endeavored to infuse into it harmony, discipline and efficiency, taking, myself, all the responsibility of the situation.

I have held to a strict accountability those under my command. In forcing my views I may have at times ran counter to the opinions of some of my officers, but time, I think, has demonstrated the fact that I was not far from right in all matters where judgment had to decide the issue.

I have always extended the courtesies to good and faithful officers and men, and encouraged them in the arduous duties of their undertaking. I feel safe in saying that the police of St. Louis will compare favorably with any other in the nation.

INCREASE OF FORCE.

I desire to call your attention to the importance of early

Digitized by Google

and earnest action with the City Council for an increase of the force for the coming year. The limits of the city having been extended this winter by legislative enactment, necessarily involves the right of protection to the tax payer. We must have our patrol force increased to make it five hundred (500) men, exclusive of officers, and an additional twenty (20) men for the cavalry squad. This number is less than either Boston, Baltimore, Chicago or New Orleans has at the present time, neither of whom have as large a population as St. Louis.

INCREASE OF DISTRICTS.

On the 6th of February last I had the honor to represent to your Board the importance of sub-dividing the second and third police districts, creating thereby a fifth district. The territory embraced in the second and third districts, together with the immense population, demands this change. It may be well to call your attention to the boundaries of the above mentioned districts, when I think you will concur in the opinion above expressed. The second, or central, district is bounded on the north by Washington avenue, south, by Chouteau avenue; east, by the river, and west, by city limits. The third district is bounded on the north by Cass avenue, south, by Washington avenue; east, by the river, and west, by city limits. You will see by this that the demands made on the Captains of those districts are too vast to insure the proper attention to the wants of the people.

I would respectfully suggest, for your consideration, the following boundaries for the fifth police district, viz: That portion of the city bounded on the north by Franklin avenue; south, by Chouteau avenue; east, by river, and west, by Seventh street.

This will throw the bulk of the business men within this district, and, with an additional Captain and Sergeants to control the same, we can meet the daily demands of this class of citizens, whose wants of protection and facilities are a constant complaint.

Digitized by Google

It will also relieve the Captain of the second district from a very onerous and increasing burden, and afford him time to look after the western precincts of his district.

STATION HOUSES.

In reference to our station houses, I have thought it unnecessary to enter into a prolixity of detail, as you are entirely familiar with their localities, and their requirements; I beg leave, however, to suggest the propriety of creating an additional sub. in the fourth police district, for the following reasons, viz: Both of the station houses in this district are on or near Broadway, and a distance of one and a half (1 1-2) miles from the northern and western limits of the district; you will readily see the time it will require, after making an arrest, to convey the prisoner to the nearest station. A suitable place would be near the fair grounds—say within four or five blocks of the same.

POLICE TELEGRAPH.

This office is in full telegraph communication with all police stations, Workhouse, House of Refuge, Fire Department, Mayor's office, etc. One important place, however, has thus far been neglected—the City Hospital—with which we have no connection; the lack of which is a serious inconvenience, as we have daily business with that institution. I would suggest that early action, by the Board, be taken in the premises.

POLICE CONVENTION.

The Police Convention held here last October, under the auspices of your Honorable Board and the Honorable City Council, was a decided success. It has establisned a healthy and fraternal feeling among the heads of departments throughout the country; it has been the means of giving reciprocity of action and harmony of sentiment all over the land.

This office has been the recipient of many congratulatory letters, both from officers and distinguished citizens of the United States, as well as from Europe. The material aid necessary to the publication of the proceedings of the Con-

Digitized by Google

vention, have been promptly forwarded by the delegates in attendance. Copies of the same have been sent to all parts of the country, and to Europe.

The Convention adjourned to meet in the "Federal city" in June next. I am in communication with the various officers who took part in the late proceedings, in order that I may know what may be their desires and wishes pertaining to the anticipated meeting. Matters of much value, and the deepest import, have been born of the late Convention, and I trust that time and earnest action will mature them, and that we may reap the reward which they will surely bring forth.

To you, gentlemen of the Board of Police Commissioners, I desire to return my sincere thanks for the continued confidence manifested in me, as well as for staunch and unflinching support rendered under many trying circumstances for the benefit of the public weal.

Very respectfully, etc.,

JAMES McDONOUGH, *Chief.*

REPORT

OF THE

BOARD OF WATER COMMISSIONERS.

OFFICE BOARD OF WATER COMMISSIONERS,
Northwest corner Eighth and Pine Sts.
ST. LOUIS, *May 1, 1872.*

Henry Kayser, Esq., Comptroller of the City of St. Louis:

SIR—The Board of Water Commissioners, in accordance with law, have the honor to submit the following report:

The receipts and expenditures by the Board for six months from date of last report, as shown in detail by table No. 1, were as follows:

Cash on hand November 1, 1871.....		$ 13,653 78
Receipts for six months, ending May 1, 1872....		732,686 25
		$746,340 08
Expenditures, interest and discount on bonds....	$209,474 86	
Expenditures, construction.....	102,528 12	
Expenditures operating works and pipage.....	272,859,25	
		$584,662 28
Balance cash on hand May 1, 1872.....		$161,677 80

A detailed statement of total receipts and expenditures since organization of Board in March, 1867, is given in table No. 2, viz:

Receipts from all sources.....		$6,632,379 65
Expenditures for constructing new works....	$5,212,805 05	
Expenditures for extension of new works....	36,355 11	
Expenditures for old works, operating old and new works, and pipage.....	1,221,541 66	
		$6,470,701 85
Balance cash on hand May 1, 1872.....		$161,677 80

Digitized by Google

Amongst receipts from all sources are receipts from water licenses from April 5, 1867, to date of report, amounting to $1,668,642 08.

Table No. 3 furnishes a statement of the amount received for water licenses each day and each month, and the total received from November 1, 1871, to May 1, 1872, the net receipts for that period being $193,442, showing an increase of $27,857 92 over the receipts for six months ending May 1, 1871, which were $165,584 08.

For the year ending May 1, 1872, the receipts for licenses were $373,194 60. For the year ending May 1, 1871, they were $335,626 91, showing an increase for past year of $37,567 69.

Table No. 4 is a statement of total revenue from water rates from first introduction of the Waterworks into the city up to May 1, 1872, amounting to $3,764,920 09.

The receipts for permits for attachment to distribution pipe for the last six months were $1,468 95, and for year ending May 1, 1872, $3,442 20. For year ending May 1, 1871, receipts from same source were $2,626 15, showing an increase for past year of $816 05, about one-third.

Table No. 5 is an itemized statement of operating expenses for the past six months, viz:

Running expenses of works	$73,513 61
Collection of revenue	15,161 16
	$88,674 77

Operating expenses for twelve months ending May 1, 1872, were $182,367 58. For twelve months ending May 1, 1871, they were $122,247 58, showing an increase for past year, during which time the new works have been in operation, of $60,120. The operating expenses up to March, 1871, were for the running of the old works alone.

The new high and low service engines at Bissell's Point have been pumping water without interruption since May, 1871. The year during which the engines were to be tested,

Digitized by Google

according to contract, having expired, and the Board having tested them to their satisfaction, they have accepted them and released the contractors from further responsibility.

The cost of coal consumed by the pumping engines during the past year was $57,588 52. Amount paid for coal for the year ending May 1, 1871, was $45,271 59, showing an increase in cost of fuel during past year of $12,316 93. However, in addition to the large increase in the quantity of water pumped during the last year, is to be noted the fact that the water has been *lifted* twice,—first into the settling reservoirs, and thence, after flowing into the clear well, to the storage reservoir, and to a far greater height than by the engines at old works.

Table No. 6 is an itemized statement of engineering expenses for six months, ending May 1, 1872, amounting to $11,409 64. For the year ending May 1, 1872, they were $24,518 42.

Table No. 7 furnishes an itemized statement of miscellaneous expenses for past six months amounting to $16,758 15. For year ending May 1, 1872, they were $28,828 31.

PIPE LAYING AND SPECIAL TAX FOR PIPE.

THE FOLLOWING PIPE HAS BEEN LAID THE LAST SIX MONTHS, UNDER ORDINANCES PASSED BY THE CITY COUNCIL, AT SESSION ENDING FEBRUARY 9, 1872.

	Ordinance.
Anna street	7888
Columbus street	7910
Stoddard street, from Clay to Elliot avenue	7855
Stoddard street, from Jefferson to Elliot avenue	7884
Glasgow avenue	7884
Sheridan avenue	7946
Wash street	7860

Sixth street	7947
Thirteenth street	7947

In above list of pipe not yet laid is a line of pipe in Chouteau avenue, from Levee to Seventh street, under ordinance No. 7841; six inch pipe, however, was laid in Chouteau avenue, from Third street to Fifth street, previous to passage of said ordinance.

The pipe authorized to be laid in Tenth street, from Washington avenue to Cass avenue, under ordinance No. 7841, cannot be laid until the street is opened from Washington avenue to Green street. The pipe authorized to be laid in Lucas avenue, from Ware avenue to Grand avenue, under ordinance No. 7910, cannot be connected, if laid, at either extremity, with the distribution pipe already laid.

The six inch pipe authorized to be laid in Eighth street, from Cerre street to Walnut street, under ordinance No. 7841, cannot be laid at present, owing to interruption of railroad track between Cerre and Poplar streets.

Twelve inch pipe has been laid in Lynch street, and also in Sixteenth street, in place of six inch, as required by ordinances.

Six inch pipe has been laid in Eighteenth street, from

Digitized by Google

Waterworks street to North Market street, to make connection necessary for an equal supply of water at said points.

Twenty inch pipe has been laid in Franklin avenue, from Ewing avenue to Grand avenue, the pipe used for said line being a portion of the twenty inch mains taken up in Mullanphy and Waterworks streets.

Connection has been made of the twenty inch main in Seventeenth street to the twenty inch main in Mullanphy street; also, of the twenty inch main in Seventeenth street to the thirty inch main in Cass avenue.

The cost of pipe laid during the past six months, as shown by table No. 8, was $71,496 49.

Six inch pipe has been laid, in addition to pipe above given, at request of North Missouri or St. Louis, Kansas City & Northern Railroad Co., in the south side of Harrison street, from fire plug on southeast corner of Harrison street and Broadway to southeast corner Harrison and Second streets, a distance of 355 feet, the cost of which ($797 76) was paid by said company.

The thirty inch main in West Seventeenth street, from Waterworks street to Benton street reservoir, has been taken up. The two twenty inch mains in Mullanphy and Waterworks streets, from Seventeenth street to Benton street reservoir, have been taken up, and a portion of the pipe from said mains has been relaid in Franklin avenue, from Ewing avenue to Grand avenue, and another portion is being relaid in Seventh street, from Chouteau avenue to Park avenue. The fifteen inch pipe formerly laid in West Eighteenth street, from Benton street reservoir to Waterworks street, has also been taken up. Nearly all of the fifteen inch pipe taken up is being relaid in Seventh street, between Victor street and Lynch street.

The aggregate cost of taking up said pipe was $8,791 25, of which $1,863 was for fuel used in melting joints, and $6,928 25 for labor. The estimated value of said pipe and lead as taken up, for use in other directions, was $55,040 79.

Digitized by Google

These alterations in the system of distribution of water were rendered necessary by the change from the old works to the new works as a source of supply, as both the Benton street reservoir and Gamble street reservoir have been abandoned since the new works were put in operation.

The total cost of pipe of all sizes laid to date, as shown by table No. 9, is $1,837,313 38, to which is to be added $740,000, being approximate cost of grand avenue force main and connections, Lafayette avenue supply main and pipe connecting low service engine house to settling reservoirs, full details of which are not yet made up.

Up to March 29, 1872, the Board had assessed and collected the cost of a six inch water pipe from property owners wherever pipe had been laid under ordinances. At that date a bill for the refunding of special pipe tax collected, and providing that a special tax for pipe should *not* be collected from property owners by assessment in the future, passed the General Assembly and was approved by the Governor, which reads as follows:

"An act, amendatory of and supplementary to an act entitled an act to amend an act entitled an act to enable the city of St. Louis to procure a supply of wholesome water," approved March 23, 1868.

Be it enacted by the General Assembly of the State of Missouri, as follows:

SECTION 1. That section one of the above entitled act be and the same is hereby amended so as to read as follows:

SECTION 1. When ever a majority in interest of the property, whether in any street, lane or alley in the city of St. Louis, shall hereafter petition for water pipe to be laid along such street, lane or alley, and the City Council shall, by a vote of two-thirds of all the members elected, declare the laying of water pipe to be necessary, the said Board of Water Commissioners shall cause the same to be laid, and the cost of laying such pipe shall be paid by the city to the

Digitized by Google

Board of Water Commissioners on presentation by them of a certified special tax bill of the cost of such pipe, to the City Comptroller, who shall draw his warrant on the Treasurer of the city of St. Louis for the amount, and the Treasurer shall pay the same and charge to the appropriation made for the laying of the pipe in the street, lane or alley named in the ordinance directing the Board of Water Commissioners to lay the pipe.

SEC. 2. Any person having heretofore paid any special tax for the laying of water pipes under the provisions of section two of the above entitled act, shall have the right to recover the amount so paid from the city; and for that purpose he shall, within two years from the passage of this act, present his account therefor, with the tax bills or vouchers attached thereto, or satisfactory proof of their loss to the Board of Water Commissioners, who shall compare the same with their books and records, and if found correct shall certify to such person the amount so paid by him, and such person may thereupon present such certificate to the City Treasurer of the city of St. Louis, who shall pay the same out of any money in the treasury appropriated for that purpose. Any person against whom any special tax bill may have been issued, and which have not as yet been paid, shall not be required to pay the same, but the same shall be paid by the city to the Board of Water Commissioners on presentation by them of a certified special tax bill of the cost of such pipe, with accrued interest, according to law, to the City Comptroller, who shall draw his warrant on the Treasurer of the city of St. Louis for the amount, and the Treasurer shall pay the same.

SEC. 3. That section two of the act of which this is amendatory is hereby repealed.

SEC. 4. This act shall take effect and be in force from and after its passage.

As will be seen in a previous part of this report, a very large number of ordinances for the laying of water pipe had been passed by the City Council at session ending February 9, 1872, involving a large outlay on the

Digitized by Google

part of the Board of Water Commissioners for the laying of the same, a great portion of which outlay they calculated would be returned to them by assessment against the property owners. A considerable portion of this pipe has been laid by them, and most of the pipe required by ordinances not yet laid has been contracted for, and is now being delivered to the Board by the contractors and paid for on monthly estimates.

The Board of Water Commissioners, under date of 9th of April, 1872, addressed to his Honor the Mayor, a communication setting forth the facts in reference to the laying of pipe under ordinances passed by the City Council, and results arising from the law for the refunding of special pipe tax, before quoted, which communication reads as follows:

OFFICE BOARD OF WATER COMMISSIONERS,
ST. LOUIS, *April 9, 1872.*

Hon. Joseph Brown, Mayor of the City of St. Louis:

SIR—The Twenty-sixth General Assembly of the State of Missouri, at its adjourned session in 1872, passed an act amendatory of and supplementary to an act entitled an act to enable the city of St. Louis to procure a supply of wholesome water, approved March 23, 1868, section one of which act provides when ever a majority in interest of the property holders in any street, lane or alley in the city of St. Louis, shall *hereafter* petition (law approved March 29, 1872,) for water pipe to be laid along any street, lane or alley, and the City Council shall, by a vote of *two-thirds* of all the members elect, declare the laying of water pipe necessary, the said Board of Water Commissioners shall cause the same to be laid, and the cost of same shall be paid by the city out of the appropriation made for the laying of the pipe.

Section two of said act provides that any person having heretofore paid any special tax for the laying of any water pipe, shall have the right to recover the amount so paid from the city, and any person against whom any special tax bill

Digitized by Google

may have been issued and not yet been paid, shall not be required to pay the same, but the same shall be paid by the city.

We find upon examination of the books in this department, that the amount of special tax bills and interest paid thereon for the laying of six inch water pipe, which has been assessed against property owners under the laws of 1867 and amendatory act of 1868, amounts to . $268,817 69

There has been paid on special tax bills	$200,403 72	
Interest paid thereon . .	5,520 45	
Special tax bills remaining unpaid, exclusive of interest .	62,893 52	
		$268,817 69

During the sessions of the Honorable Common Council, ending February 9, 1872, that body passed a large number of ordinances directing this Board to lay water pipe and assess the cost of same to property owners, as provided for in section one of the act approved March 23, 1868. Having the ordinances before them, the Board solicited proposals for water pipe, the price for which they accepted, and contracted for *all* the pipe that will be required to complete ordinances now in force.

You will observe from the accompanying statements that the cost of the six, twelve, fifteen and twenty inch pipe, as proposed to be laid to give an adequate supply of water for fire and other purposes, will amount to . . . $688,476 00
Less cost of six inch pipe, if laid in accordance with the law and ordinances, amounting to 352,223 00

Balance $336,253 00

to be paid for by the Board, which amount was contemplated to be paid by them from the proceeds of 1250 water bonds, authorized to be issued to extend the Waterworks.

The work of laying water pipe, which was progressing when the law of March 29, 1872, was approved, will be

Digitized by Google

found in statement annexed marked "A," the cost of which, when completed, will be	$57,845 00
From which may be deducted the cost of a six inch pipe, which would have been assessed against property owners under law and ordinances	22,705 00
To this may be added cost of laying six inch pipe in streets where it has now been hauled, and which would have been assessed against property owners under law and ordinances	103,227 00
As also the cost of completing the laying of six inch pipe provided for by law and ordinances, not delivered . . .	226,291 00
Total cost of six inch pipe . . .	$352,223 00
Add amount already assessed and paid for laying six inch pipe under law of 1868, and ordinances	$200,403 72
Interest paid thereon	5,520 45
Amount of unpaid bills in hands of Board, assessed under law of 1868, and ordinances	62,893 52
Total amount to be refunded . . .	$621,040 69

This amount would have been collected from owners of property fronting on the pipe where ordered to be laid under existing ordinances.

The Board included, in their estimate for the completion and extension of the Waterworks, the difference in cost between six inch pipe and the twelve, fifteen and twenty inch pipe necessary to be laid to obtain a perfect system of distribution of water throughout the city, when making their application for authority to be given to the proper officers of the city for the issue of $1,250,000 in water bonds.

The $268,817 69-100 to be refunded for pipe laid by the Board under law and ordinances, does not include the cost of

Digitized by Google

pipe laid and assessed against property owners prior to the creation of the Board of Water Commissioners by the act of March 13, 1867, which amount this Board has no means of determining.

We make these statements of facts presuming that upon your recommendation the Honorable Common Council will at once provide the means of carrying out the provisions of ordinances already passed, and thereby furnish the citizens a supply of pure and wholesome water, as contemplated by the act of March 13, 1867, and act of March 23, 1868.

The Board will lay six inch pipe according to ordinances passed, which they expect to complete within six months, and when finished a detailed account of the cost of laying the pipe will be presented to the city, from which will be deducted amount paid on same previous to passage of refunding law by property owners.

CONTRACTS.

A contract was made with the Gaylord Iron and Pipe Company, of Cincinnati, November 8, 1871, for

275 tons twelve inch pipe at	$ 67	00	per ton of	2,240	lbs.
350 tons fifteen inch pipe at	66	60	"	"	"
1,000 tons twenty inch pipe at	65	50	"	"	"
250 tons special castings at	98	50	"	"	"

A contract was made with Shickle, Harrison & Howard, February 16, 1872, for

650 tons six inch pipe at	$ 78	00	per ton of	2,240	lbs.
150 tons fifteen inch pipe at	77	00	"	"	"
500 tons twenty inch pipe at	76	00	"	"	"
150 tons special castings at	105	00	"	"	"

A contract was made February 7, 1872, with Charles J. Schultz to construct and erect a foot bridge from low service engine house to river tower at Bissell's Point, at a cost of thirty-six hundred dollars, which, at this date, is nearly completed; also, with same party, March 2, 1872, to construct and erect a gate house on river tower, at a cost of four thousand nine hundred and fifty dollars, which will be placed in position in a few months.

On the 9th day of March, 1872, proposals for hauling were opened at the office of the Board, and contract was awarded to Bernard F. Meyers, he being the lowest bidder, at the following prices:

6,000 pieces six inch water pipe at	$ 18	cents	each.
1,800 pieces twelve inch water pipe at	30	"	"
1,800 pieces fifteen inch water pipe at	45	"	"
2,500 pieces twenty inch water pipe at	85	"	"
1,200 pieces thirty-six inch water pipe at	3 50	"	"
250 tons special castings at	$1 25	per ton of	2,240 lbs.

Digitized by Google

On April 9, 1872, G. B. Allen & Co., they being the lowest bidders, were awarded a contract for furnishing

400 fire plugs at.....$29 00 each.

Also, on April 12, 1872, the same parties, being the lowest bidders, were awarded a contract for furnishing

175 six inch valves at	$ 33 00	each.
30 twelve inch valves at	96 00	"
12 fifteen inch valves at	157 00	"
5 twenty inch valves at	245 00	"

GATE HOUSES AT RESERVOIRS.

The three gate houses contracted for with H. Milburn, September 11, 1871, for the sum of $5,200, two at settling reservoirs and one at storage reservoir, have been completed since last report.

COAL SHED.

The storage shed at Bissell's Point, to be used for storing an extra supply of coal, has been completed since last report, at a cost of $3,367 51. It is of a capacity to hold 50,000 bushels of coal.

ICEBREAKER AND RIVER DYKE AT BISSELL'S POINT.

Work on the above has been carried on under the superintendence of Mr. Adolph Knipper during the past six months, and they are now capable of affording all necessary protection to the river tower.

ICE TAKEN FROM RESERVOIRS.

The Board have received $750 for ice taken by Hazard & Wilson from Benton street reservoir during the winter of 1870-71, $100 from same parties for ice taken from small Benton street reservoir, $2,701 for ice taken by them from the four settling reservoirs at Bissell's Point, and $1,000 for ice taken by them from the Compton Hill storage reservoir, making a total of $4,551, paid by Hazard & Wilson during the last six months.

During the past winter $1,721 25 worth of ice was sold to John O'Brien and taken by him from storage reservoir, $100 of which he has paid, leaving a balance due the city at this date of $1,621 25.

NEW WORKS EXTENSION.

FORCE MAIN NO. 2 ON GRAND AVENUE, AND FOURTEENTH STREET DISTRIBUTION MAIN.

The thirty-six inch pipe contracted for with the Gaylord Iron and Pipe Co., of Newport, Kentucky, for these mains, are now fast arriving by barges, and will be hauled to their destination as soon as practicable. It is expected that the necessary grading on Grand avenue and Fourteenth street, to prepare for the laying of this pipe, will be completed by July. The valves for these mains are being furnished by Collins & Holliday, of this city.

THIRD HIGH SERVICE, AND THIRD LOW SERVICE ENGINES.

Plans are now being prepared of these engines, each of a proposed capacity of twenty-four million gallons per diem. The engines will be put under contract as soon as practicable.

BONDS.

The Board of Water Commissioners during the last six months memorialized the General Assembly at its adjourned session of 1872, for authority to issue additional bonds to complete and extend the works, as follows:

SAINT LOUIS, MO., }
December 21, 1872. }

To the Honorable Senators and Representatives of the Twenty-Sixth General Assembly of the State of Missouri:

GENTLEMEN—Your memorialists, the Board of Water Commissioners of the city of St. Louis, most respectfully beg leave to present the following facts in regard to the Waterworks under their charge, and call the attention of your honorable body to the necessity of further legislation.

The new Waterworks, which are now in successful operation, were planned in the year 1865, and were designed to furnish the city with an immediate supply of sixteen and a half millions of gallons of water daily; but the works were to be and are constructed with a view of increasing the daily supply to thirty-three 33 millions of gallons by the addi-

Digitized by Google

tion of two (2) more engines and an additional force main, whenever the increase of the population of the city should demand it. The estimated population of the city when the new works were planned was one hundred and ninety-four thousand four hundred (194,400), and the daily consumption of water was six million two hundred and fifty thousand (6,250,000) gallons. Taking the rate of increase of consumption of water in other large cities as a basis, Mr. James P. Kirkwood, the then Chief Engineer of the works, estimated the probable population in eighteen hundred and seventy (1870) at two hundred and thirty-three thousand two hundred and eighty (233,280), and in eighteen hundred and eighty (1880), at three hundred and twenty-six thousand five hundred and ninety-two (326,592) inhabitants.

From his estimates, making a liberal allowance for an increase in the consumption of water more rapid than that of the population, it was assumed that the erection of new engines would not become necessary before eighteen hundred and seventy-six (1876), or eighteen hundred and seventy-seven (1877).

However, when the present Board of Water Commissioners came into office, the population of the city had already increased to the number estimated in eighteen hundred and sixty-five (1865), as the population of eighteen hundred and eighty, and the new works, which had but lately been put into operation, were hardly able to supply the necessary consumption of water.

The cause of this failure was partially temporary and owing to small defects and casual breakages (which might well be expected in new engines of such enormous proportions), as well as to a lack of proper connections between the new and old system of distribution pipes. These deficiences have, in a great measure, been remedied by the exertions of your petitioners, and the new works are now in good running order and able to supply the present demands of the city consumption of water.

Digitized by Google

The average daily consumption of water in the city is now about thirteen million (13,000,000) gallons; during the summer months, fifteen million (15,000,000) gallons. The engines can pump fifteen (15) to sixteen million gallons of water per day, and, as your petitioners hope, will, before long, be able to pump the sixteen and one-half millions per day required by contract.

However, the system of supply mains is now being pushed so rapidly over many parts of the city, which could not be reached by the old works, that the consumption of water will necessarily increase very much during the next few years, the more so as the improved quality of the water induces many persons to use hydrant water, who formerly relied on wells and cisterns for their supply.

It is estimated that before the expiration of two years, from eighteen (18) to twenty (20) million gallons of water will be consumed per day.

This demonstrates the necessity of the immediate erection of two (2) more engines and the laying of the necessary force main.

To construct and erect the engines will take at least two (2) years, and before the end of that time the present engines will be put to their full capacity. As a temporary relief, however, during this time, in case of an extraordinary demand for water arising, your petitioners have already taken the necessary steps to lay an additional thirty-six (36) inch force main from the high service engine house to the stand pipe at the intersection of Grand avenue and Fourteenth (14th) street, and a thirty-six (36) inch distributing main, almost two miles long, on Fourteenth (14th) street, and, anticipating the favorable action of your honorable body, have already entered into contract for the pipe, amounting to thirty-two hundred (3,200) tons.

Before next summer these pipes must and will be laid. It is confidently expected that, with this improvement perfected, twenty (20) millions of gallons of water can be supplied by

Digitized by Google

the present engines, for the reason that these pipes will admit of two (2) more engines being operated simultaneously a part of the time; but, as before stated, this will be merely a temporary safeguard against failure in the supply of water while the new engines are in course of construction.

The new engines your petitioners intend to have are of even larger proportions than the present ones—of capacity of from twenty-two (22) to twenty-four million (24,000,000) gallons per day—so that upon their completion a daily supply of thirty-eight to forty million (40,000,000) gallons of water can be furnished, sufficient for a population of seven (7) to eight hundred thousand (800,000) inhabitants. To obtain through your legislative action the means necessary for this unavoidable extension of the works is one of the objects of this petition.

Besides the amount of money required for the extension of the works proper, the extension of distributing mains will require an outlay which your petitioners will not be able to meet from their present or prospective resources. The large distributing mains laid in the city previous to the adoption of the plan for the new works, naturally were laid for distribution of water from the old reservoir and pumping engines, without regard to the immense increase of the city, both in area and population. Some of the most important sections of the city have to draw their supply of water from three (3) inch pipes, and even when six (6) inch pipes are used, they, in many cases, have not proper connections, and are often far away from any of the large distributing mains.

When the plan of the new works had been approved, our predecessors adopted a system of distributing pipes suited to the new source of supply, and for all new pipe laid adhered to this system. They did not feel authorized to employ the means placed in their hands for the construction of new works to the improvement of the old system of distributing pipes.

But as the demand for water pipe extends to parts of the city which could not heretofore be supplied, as well as to the

Digitized by Google

new territory acquired by the city through the annexation of Carondelet, it becomes imperatively necessary to provide at once for large distributing mains, so that the supply of water may hereafter be constant, and with the necessary pressure to furnish an ample supply of water to our fire department. It is estimated that twenty (20) miles of large distributing mains of twelve (12), fifteen (15) and twenty (20) inch diameter will have to be laid down during the next two (2) years, and as the laws only allow the cost of a six (6) inch pipe to be collected by special tax bills for all pipe laid under the ordinances of the Common Council, it is obvious that this will be a source of great expense, which has to be provided for.

Six thousand six hundred (6,600) tons of pipe will be required for this purpose, two thousand eight hundred and fifty (2,850) tons of which your petitioners have contracted for.

To have greater security against fire, it will also be necessary to largely increase the number of fire plugs throughout the present system of distributing pipes.

There are now six hundred and sixty-three (663) fire plugs attached to the various lines of pipes, and it is the intention of your petitioners to increase the number by at least one thousand (1,000). It is believed that, aside from the increased efficiency of the fire department thereby insured, the amount of saving in the cost of fire engine hose alone will pay more than the interest on the amount of money expended for this purpose.

To the amount required for the extension of the works, the extension of distribnting pipes and additional fire plugs, has to be added what will be required to protect the river bank at and above Bissell's Point, to construct landing, to ornament ground, and several smaller improvements and additions necessary for the completion of the works.

From a careful, and, as your petitioners believe, liberal estimate, made by the Chief Engineer and Superintendent

Digitized by Google

Mr. Thos. J. Whitman, your petitioners submit the following statement of the amount of money required for the improvements and extensions hereinbefore set forth, viz:

For extension of Waterworks	$527,000 00
For extension of distributing pipe, including pipe to Carondelet and additional fire plugs	520,000 00
For completion of present works	97,680 00
	$1,144,680 00

The revenue during the next two (2) years is estimated at seven hundred and fifty thousand ($750,000) dollars, and operating expenses at two hundred and eighty thousand dollars, leaving a net surplus of four hundred and seventy thousand ($470,000) dollars.

If this revenue be applied to the work above specified, about six hundred and sevnty-four thousand ($674,000) dollars will have to be provided for, besides the money required to pay the interest on water bonds. There have been issued three million nine hundred and fifty thousand ($3,950,000) dollars water bonds. If an additional one million two hundred and fifty thousand ($1,250,000) dollars in water bonds are issued as the work progresses, the interest for two years, and discount on the bonds, is estimated at six hundred and thirty-four thousand ($634,000) dollars, which makes the sum total one million three hundred and eight thousand ($1,308,000) dollars. The deficit of fifty-eight thousand ($58,000) dollars is nearly covered by thirteen thousand six hundred and fifty-three dollars and seventy-one cents ($13,653 71), cash on hand November 1, and out-standing special tax bills amounting to forty-two thousand ($42,000) dollars.

The cost of the new works up to May 1, including interest and discount on bonds, was		$4,772,520 81
From May 1, to November 1		164,836 40
Yet to be expended		97,680 00
		$5,035,037 21
Deduct interest		685,665 96
Leaves cost of the new works		$4,349,371 25

Digitized by Google

The amount of money required for extension of the works to a capacity of forty millions of gallons per day, and distribution will be	$1,047,000 00
Making total cost after completing all the improvements proposed by your petitioners	$5,396,371 26

And the bonded debt of the city, on account of the construction of the Waterworks, five million two hundred thousand ($5,200,000) dollars. Two hundred thousand ($200,000) dollars of this amount might be realized by the sale of the real estate and engines belonging to the old works leaving the debt five million ($5,000,000) dollars.

The revenue within two (2) years is expected to increase to about four hundred and fifty thousand ($450,000) dollars, for the reason that the length of supply pipes will by that time be about sixty (60) per cent greater than now, and assuming the operating expenses at one hundred and fifty thousand ($150,000) dollars per annum, the net revenue will be three hundred thousand ($300,000) dollars, which amount will pay the interest on five million (5,000,000) dollars of bonds. Having thus laid before your honorable body a full statement of the purposes for which this amount of money is required, as well as the urgency of the case, your petitioners earnestly pray that you will authorize the issue by the city of St. Louis of the amount of bonds required, viz: one million two hundred and fifty thousand)$1,250,000) dollars, under such restrictions as to their issue and application of the proceeds as your wisdom may dictate, and feel confident that your legislative action will enable them to add to the many advantages which St. Louis now possesses that of having the best and ample supply of pure and wholesome water, and your petitioners will ever pray.

[Signed:] JOSEPH BROWN,
Mayor and ex-officio President.
R. M. RENICK,
HENRY FLAD,
WM. H. STONE,
Commissioners.

Digitized by Google

The undersigned, being members of the Committee on Waterworks of the Common Council of the city of St. Louis, fully concur in the foregoing petition of the Board of Water Commissioners, and recommend the issuing of the amount of bonds therein named, viz: $1,250,000.

HENRY C. YAEGER,
H. RECHTIEN,
A. KRIECKHAUS,
JAMES TIERNAN,
L. S. BARGEN,
CHAS. A. MANTZ.

In answer to said memorial, the General Assembly of the State of Missouri passed the following act:

An Act to authorize the city of St. Louis to issue and dispose of additional bonds to enable it to extend and protect its Waterworks.

Be it enacted by the General Assembly of the State of Missouri as follows:

SECTION 1. The Mayor and Register of the city of St. Louis are hereby authorized, and required on the requisition of the Board of Water Commissioners of said city, to issue at the option of the purchaser, registered or coupon bonds of the said city, each for the sum of one thousand dollars, payable in twenty years from date, denominated on the face thereof "Saint Louis Water Bonds," to an amount not exceeding the aggregate of one million three hundred and eighty-five thousand dollars ($1,385,000), bearing interest at the rate of six per cent per annum, payable semi-annually in gold coin of the United States, in the city of St. Louis, or in the city of New York, at the option of the purchaser, where, also, the principal shall be paid in gold or its equivalent. All said bonds shall be signed by the Mayor and countersigned by the Register of the city of St. Louis, in the same manner as other city bonds, and a record thereof shall be kept by the Comptroller, Treasurer and Auditor respectively. The

Digitized by Google

coupons attached to said bonds shall be signed by the Treasurer of the city of St. Louis.

SEC. 2. The Mayor of the city of St. Louis shall give notice, for the period of at least thirty days, in three daily newspapers published in the city of St. Louis (one of which shall be published in the German language), and two daily newspapers published in the city of New York, that sealed proposals will be received at his office for the purchase of any number of said bonds, in sums of five thousand dollars and upwards, which bids shall be publicly opened in his office on the day and at the hour named in said advertisement. The Mayor may reject any and all bids, if in his opinion the bids received be not fair and satisfactory, and he shall thereupon re-advertise for new bids. Whenever the Mayor shall have accepted bids for any amount of bonds not less than five thousand dollars, he shall deliver the same and receive the money therefor and pay over the same to the Board of Water Commissioners, taking their receipt therefor, and shall, as soon as practicable, file a statement of his proceedings under this act, verified by oath, in the City Comptroller's, Treasurer's and Auditor's offices, showing the number of bonds sold, the amount received therefor, and the necessary expenses of the sale, and shall file therewith the receipt in triplicate of said Board of Water Commissioners with the City Comptroller, Treasurer and Auditor for the net proceeds of the sale of said bonds; but no commission or compensation shall be charged by the Mayor for his services in effecting the sale or negotiation of said bonds.

SEC. 3. The said Board of Water Commissioners shall receive and dispose of the proceeds of the sale of twelve hundred and fifty of said bonds in the same manner as provided for in the twenty-fifth section of an act entitled an act to enable the city of St. Louis to procure a supply of wholesome water, approved March 13, 1867, and in same manner as provided for in the fourth section of an act entitled an act to authorize the city of St. Louis to issue and dispose of addi-

Digitized by Google

tional bonds to enable it to complete its Waterworks, approved March 25, 1870, in relation to the proceeds of the sale of St. Louis Water Bonds, authorized to be issued under said acts, and the proceeds of the remaining one hundred and thirty-five bonds shall be applied by the said Board of Water Commissioners for the protection of said Waterworks by the revetment of the river bank, immediately above said Waterworks, from the foot of Grand avenue to the new mouth of Gingrass creek, and it shall be the special duty of the Board of Water Commissioners to apply the proceeds of the bonds sold in the manner and for the purposes herein specified, and any omission to do so, or every misappropriation thereof, or any part thereof, for any purpose other than that prescribed by this act shall, subject them, or any one of them, or every one voting for or consenting to such misappropriation to immediate removal from office by the Mayor of the city of St. Louis, or by a resolution of the City Council of the city of St. Louis, on satisfactory evidence thereof.

SEC. 4. The whole net income, rents and receipts of said Waterworks, over what may be necessary for extending, operating and repairing the same, shall be transferred quarter yearly by the Board of Water Commissioners to the Board of Fund Commissioners of the city of St. Louis, and shall be by them invested in St. Louis Water Bonds, if the same can be done advantageously, and if not, in other bonds of the city or county of St. Louis, and if none such are procurable, then in bonds issued by the State of Missouri, or by the United States, and the whole sum so invested shall be set apart as a sinking fund solemnly appropriated to and for the payment of the principal and interest of the bonds authorized to be issued under this act, as well as the bonds issued under the several acts approved March 13, 1867, and March 25, 1870, and shall be applied solely to that purpose until the whole of said bonds of the three issues be fully paid, and the Board of Fund Commissioners shall, whenever required by the City Council of the city of St. Louis, or the Board of Water Commissioners, render a just, true and full account to the said

Digitized by Google

City Council, or to the said Board of Water Commissioners, of all their receipts, payments and proceedings under this section.

SEC. 5. This act to take effect and be in force from and after its passage.

As will be seen in the memorial of the Board, heretofore quoted, it was contemplated that the new thirty-six inch force and distributing mains should be laid early in the summer. In this the Board are disappointed, owing to failure on the part of the Gaylord Iron and Pipe Company, contractors for the pipe and special castings to make the large Y branches necessary for the lines. In order to make these pieces, the contractors were obliged to erect a new air furnace of sufficient capacity to melt the iron; also, cranes of sufficient size to handle the castings when cast. They give assurances, however, that the castings will be delivered by July 1, 1872, at which time the work of laying will be commenced and pushed to completion at the earliest possible moment.

Under authority of the foregoing act of the General Assembly, just quoted, the Mayor advertised for sealed proposals, to be opened on the 20th day of March, 1872, at 12 o'clock noon, for the purchase of five hundred bonds of one thousand dollars each, amounting to five hundred thousand dollars, to be dated and delivered on the 1st day of April, 1872, with six per cent gold bearing coupons attached, payable semi-annually.

Proposals were accordingly publicly opened and read on the day and at the time named, and the National Bank of the State of Missouri, in St. Louis, being the highest bidder for the whole or any part of the five hundred bonds at 98 1-4c. on the dollar, the said bonds were sold to said bank, producing in the aggregate the sum of four hundred and ninety-one thousand two hundred and fifty dollars ($491,250), which sum was, on the 2d day of April, 1872, received by the Mayor, and on the same day was paid over to the National

Digitized by Google

Bank of the State of Missouri, in St. Louis, to the credit of the Board of Water Commissioners.

The remaining seven hundred and fifty bonds, authorized to be issued for Waterworks construction, will be disposed of as occasion demands.

The one hundred and thirty-five bonds, authorized by section three of the aforesaid act, to be issued for the protection of the Waterworks by the revetment of the river bank from the foot of Grand avenue to the mouth of Gingrass creek, will not be disposed of until more definite plans for protection are matured. Moreover, there is also hope that the General Government will speedily make an appropriation for the improvement of St. Louis harbor, which, together with the work proposed to be accomplished by the Board of Water Commissioners with the proceeds of said special bonds, would effect a result more advantageous to the public interest than if the sum allowed by the General Assembly to this Board were expended alone.

INTEREST ON BONDS.

On the 2d day of April, 1872, the Board paid over to Daniel G. Taylor, City Treasurer, one hundred and ninety-nine thousand five hundred dollars ($199,500), being amount advanced by City Comptroller for account of semi-annual interest due on Water Bonds June 25 and December 25, 1871, being in addition to $65,000 paid to City Treasurer by Board in June, 1871, for account of same.

The interest falling due on 25th of June, 1872, will be paid by the Board.

Accompanying this report will be found annual reports to the Board of Water Commissioners, from the Assessor and Collector of Water Rates and Special Tax Bills.

Respectfully submitted,

ASHTON P. JOHNSON,

Secretary Board of Water Commissioners.

REPORT OF ASSESSOR OF WATER RATES.

OFFICE ASSESSOR WATER RATES,
ST. LOUIS, *May 1, 1872.*

Honorable Board Water Commissioners:

GENTLEMEN—In compliance with a resolution of your Honorable Board, I respectfully submit the following report:

AMOUNT OF LICENSES ISSUED DURING EACH MONTH OF FISCAL YEARS 1871 AND 1872.

1871.	
May	$30,741 50
June	25,104 50
July	26,272 50
August	28,147 06
September	27,994 50
October	41,689 50
November	34,034 50
December	26,196 00
1872.	
January	23,711 00
February	25,898 00
March	32,282 50
April	51,716 50
Total	$373,788 06
Of this amount there has been refunded	$593 46
Leaving a net total of	373,194 60
This shows a net increase during the past year of	37,567 69
With the present rates, I estimate the revenue for the coming year at	405,000 00
